saskia has identified a profound connection between subconscious fear negative beliefs and unexplained infertility she has chosen to share them to inspire women who have almost given up hope she has written this book to explain how to achieve a mind body connection that can result in successful conception the book explores unspoken fears related to conception how to reverse negative thinking how to build safety in the body and the importance of a personal connection to your womb the book also covers advanced techniques such as talking to your unborn baby saskia s process for recovering from miscarriage she has had three how to share the conception journey with your partner and the importance of motherhood as part of your larger soul s purpose in the naked truth of unexplained infertility you will discover surprising stories about fears behaviors and attitudes that can negatively impact fertility the book explores new territory in the fertility journey and explains the number one reason for unexplained infertility assuming that there is no underlying physical issue the stories show the many different ways that saskia s work can bring about the joy of conception for women diagnosed with unexplained infertility

answers the question why are women freezing their eggs why are women freezing their eggs in record numbers motherhood on ice explores this question by drawing on the stories of more than 150 women who pursued fertility preservation technology moving between narratives of pain and empowerment these nuanced personal stories reveal the complexity of women s lives as they struggle to preserve and extend their fertility contrary to popular belief egg freezing is rarely about women postponing fertility for the sake of their careers rather the most educated women are increasingly forced to delay childbearing because they face a mating gap a lack of eligible educated equal partners ready for marriage and parenthood for these women egg freezing is a reproductive backstop a technological attempt to bridge the gap while waiting for the right partner but it is not an easy choice for most their stories reveal the extent to which it is logistically complicated physically taxing financially demanding emotionally draining and uncertain in its effects in this powerful book women share their reflections on their clinical encounters as well as the immense hopes and investments they place in this high tech fertility preservation strategy race religion and the role of men in the lives of single women pursuing this technology are also explored a distinctly human portrait of an understudied and rapidly growing population motherhood on ice examines what is at stake for women who take comfort in their frozen eggs while embarking on their quests for partnership pregnancy and parenting

this handbook organizes chapters by sets of policies that are important components of discussions about how to facilitate development in each chapter authors identify and discuss the relevant theoretical and empirical literature that describes the fundamental problems that the policies seek to remedy or ameliorate as well as the literature that evaluates the effects of the policies it presents an accurate self contained survey of the current state of the field it summarizes the most recent discussions and elucidates new developments although original material is also included the main aim is the provision of comprehensive and accessible surveys

the field of development economics has evolved since volume 3 of the handbook of development economics was published more than a decade ago volume 4 takes stock of some of the newer trends and their implications for research in the field and our understanding of economic development the handbook is divided into four sections which reflect these developments of which the first deals with agricultural and rural development section two is concerned with developments in the theory and evidence regarding public goods and political economy the third section is focused on the behavior of households and individuals regarding various aspects of human capital investments in the face of the various constraints particularly market incentives and public goods the final section contains papers that describe the different methods now available both experimental and non experimental to conduct program evaluations as well as describing papers that implement these methods the authors of the chapters are all experts in the fields they survey and extend and this volume promises to be an invaluable addition to the handbooks in economics series and a useful reference to graduate students researchers and professionals in the field of development economics presents an accurate self contained survey of the current state of the field summarizes the most recent discussions in journals and elucidates new developments although original material is also included the main aim is the provision of comprehensive and accessible surveys
