why it takes more than microloans to empower women and promote sustainable inclusive economic growth nearly one billion women have been completely excluded from the formal financial system without even a bank account in their own names they lack the basic services that most of us take for granted secure ways to save money pay bills and get credit exclusion from the formal financial system means they are economic outsiders unable to benefit from or contribute to economic growth microfinance has been hailed as an economic lifeline for women in developing countries but as mary ellen iskenderian shows in this book it takes more than microloans to empower women and promote sustainable inclusive economic growth iskenderian who leads a nonprofit that works to give women access to the financial system argues that the banking industry should view these one billion unbanked women not as charity cases but as a business opportunity a lucrative new market of small business owners heads of households and purchasers of financial products and services iskenderian shows how financial inclusion can be transformative for the lives of women in developing countries describing among other things the informal moneylenders and savings clubs that women have relied on the need for both financial and digital literacy and access as mobile phones become a means of banking and the importance of women's property rights she goes on to make the business case for financial inclusion exploring the ways that financial institutions are adapting to help women build wealth access capital and manage risks banks can do the right thing and make money while doing so and all of us can benefit

in 2002 north korea passed market liberalization reforms that allowed market forces to determine food prices in the years to follow the number of north korean defectors arriving in south korea rose considerably and the number of female defectors skyrocketed this paper which appears in north korean review vol 12 no 2 fall 2016 investigates the increase in female defectors from north korea to south korea it uses satellite imagery to measure activity in north korean markets and demonstrates a correlation between night time lights emitted by a black market in sinuiju and female defection to south korea through china it concludes that the increase in north korean female

defectors is related to women's higher mobility which is a benefit of their leading role in north korean markets

the statistical analysis of multivariate failure time data a marginal modeling approach provides an innovative look at methods for the analysis of correlated failure times the focus is on the use of marginal single and marginal double failure hazard rate estimators for the extraction of regression information for example in a context of randomized trial or cohort studies the results go beyond that obtained by analyzing each failure time outcome in a univariate fashion the book is addressed to researchers practitioners and graduate students and can be used as a reference or as a graduate course text much of the literature on the analysis of censored correlated failure time data uses frailty or copula models to allow for residual dependencies among failure times given covariates in contrast this book provides a detailed account of recently developed methods for the simultaneous estimation of marginal single and dual outcome hazard rate regression parameters with emphasis on multiplicative cox models illustrations are provided of the utility of these methods using women's health initiative randomized controlled trial data of menopausal hormones and of a low fat dietary pattern intervention as byproducts these methods provide flexible semiparametric estimators of pairwise bivariate survivor functions at specified covariate histories as well as semiparametric estimators of cross ratio and concordance functions given covariates the presentation also describes how these innovative methods may extend to handle issues of dependent censoring missing and mismeasured covariates and joint modeling of failure times and covariates setting the stage for additional theoretical and applied developments this book extends and continues the style of the classic statistical analysis of failure time data by kalbfleisch and prentice ross l prentice is professor of biostatistics at the fred hutchinson cancer research center and university of washington in seattle washington he is the recipient of copss presidents and fisher awards the aacr epidemiology prevention and team science awards and is a member of the national academy of medicine shanshan zhao is a principal investigator at the national institute of environmental health sciences in research triangle park north carolina

trata sobre la depresión incluyendo las teorías actuales más representativas también presta atención a la teoría del estrés ofrece sugerencias prácticas para una evaluación valorativa de la terapia contiene material estadístico

a critique of conventional approaches to communication research the authors argue that the impact of gender on research practices has been ignored by exploring gender issues and conducting applied research in the areas of mass and interpersonal communication therapeutic interaction and rhetoric they critique traditional scholarship and offer novel alternatives the authors take intact theories and methods and show their applicability or lack thereof to the study of women s communication the adaptations allow researchers to conduct more accurate sensitive and theoretically sound analyses of womens communication than those promoted by traditional paradigms

new readings offer insights into the opportunities and limitations offered by cyberspace ideas of domesticity and the public private split within politics and culture other topics include women s health disability citizenship and nationalism

edited by s jay kleinberg this volume investigates the role played by women in ancient more recent and contemporary history and demonstrates that taking into account the activities of women radically alters the perspectives of historians
