academic paper from the year 2022 in the subject politics region southeastern europe grade v course policy language english abstract the role of the international community in the kosovo serbia dialogue before the meeting in the usa between kosovo and serbia was evaluated as a small hope but perhaps for the slow achievement of peace the meeting in the usa had more of an economic character than a political one israel s recognition of kosovo was the only point that had great importance for kosovo but of course this conference had greater economic importance the attempt was to relax political relations through economic cooperation this conference seemed to have characters or meaning of relaxation and economic development between kosovo and serbia this conference is thought that it would open the possibility later i e the other stages to conclude the kosovo serbian dialogue according to kosovar analysts american engagement within the kosovo serbia dialogue is vital for the country due to the fact that according to them the brussels dialogue has not

produced many results for 10 years now therefore in this context the only hope remains the usa the only hope remains the usa to end the frozen conflict and the obstacle of kosovo to be part of the un nato and eu integration so the kosovars want the usa as a strong and stable mediator because the usa knows how to use diplomacy even with sanctions and the americans do not allow the dialogue to drag on forever without a final solution
