it has become a critical commonplace that postmodernism no longer serves as an adequate designation for contemporary literature but what comes after postmodernism what are the tendencies and directions within contemporary american literature that promise to shape its future the contributions to this book are written in the shadows of new media a turn towards the nonhuman in critical thinking and a surge in environmental and apocalyptic thought engaging with such contemporary debates the authors map the rapidly changing ecosystem of contemporary literary genres and forms and attend to transformations in the production reception and circulation of books this book takes for granted that american literature does have a future although whatever this future holds it is unlikely to be what we expect at this historical juncture the american novel seems to carve its future though an engagement with issues at the forefront of our present thereby ensuring its own ongoing contemporaneity this book was originally published as a special issue of *studia neophilologica*

the volumes of the cambridge history of the english language reflect the spread of english from its beginnings in anglo saxon england to its current role as a multifaceted global language that dominates international communication in the 21st century

writing has always been digital just as digits scribble with the quill or tap the typewriter digits compose binary code and produce text on a screen over time however digital writing has come to be defined by numbers and chips not fingers and parchment we therefore assume that digital writing began with the invention of the computer and created new writing habits such as copying pasting and sharing habitual rhetoric digital writing before digital technology makes the counterargument that these digital writing practices were established by the handwritten cultures of early medieval universities which codified rhetorical habits from translation to compilation to disputation to amplification to appropriation to salutation through repetitive classroom practices and within annotatable manuscript environments these embodied habits have persisted across time and space to develop durable dispositions or habitus which have the potential to challenge computational cultures of disinformation and surveillance that pervade the social media of today
