with a particular emphasis on definitions continuities and change this edited volume examines the historical role and function of haya or feelings of shame modesty and honor in islamic theology and law and explores contemporary muslims engagements with the concept the book explores various conceptions of haya and the practices associated with the concept in both muslim majority and minority contexts the empirically rich contributions reveal how haya is socially constructed in varying social and cultural environments across the globe from medieval islam to the modern day this book demonstrates the importance of haya

and its temporal and spatial transformations

this volume brings together contributions from women business scholars from a range of disciplines and countries the starting point was a collaborative research meeting organised by daughters of themis international network of female business scholars in june 2017 the volume highlights the difficulties and the possibilities that lie in working together across disciplines with the aim of achieving corporate sustainability the volume is written from the perspective of women business scholars thereby offering outside viewpoints in fields that still are very much dominated by men and fresh insights and innovate ideas in three main parts the authors address the need for interdisciplinarity in research to identify ways to ensure the contribution of business to sustainability showcasing a number of theoretical and applied approaches for researching sustainable business the volume s introductory chapter situates the volume in discourses of sustainability and corporate sustainability it presents the daughters of themis network and provides a short description of the successive eleven chapters in part i reflections contributors discuss the significance of interdisciplinary research how to work across disciplines as well as the challenges of doing so in part ii theory contributors discuss theoretical and methodological aspects of interdisciplinary research part iii presents the practice of interdisciplinary research in the introductory chapter the editors reflect on the insights that can be drawn out of the contributions and discuss the potential for future developments of interdisciplinary research for sustainability as well as how interdisciplinary research can be communicated the book is intended for business scholars and will particularly appeal to those working in law accountancy and finance management and organization studies

the four volume set lnai 6881 lnai 6884 constitutes the refereed proceedings of the 15th international conference on knowledge based intelligent information and engineering systems kes 2011 held in kaiserslautern germany in september 2011 part 3 the total of 244 high quality papers presented were carefully reviewed and selected from numerous submissions the 67 papers of part 3 are organized in topical sections on skill acquisition and ubiquitous human computer interaction intelligent network and service management technologies from the perspective of kansei engineering and emotion data mining and service science for innovation knowledge based systems for e business knowledge engineering applications in process systems and plant operations advanced design techniques for adaptive hardware and systems human oriented learning technology and learning support environment design of social intelligence and creativity environment

a dominant epistemological assumption behind western philosophy is that it is possible to locate some form of commonality between languages traditions or cultures such as a common language or lexicon or a common notion of rationality which makes full linguistic communication between them always attainable xinli wang argues that the thesis of incommensurability challenges this assumption by exploring why and how linguistic communication between two conceptually

disparate languages traditions or cultures is often problematic and even unattainable according to wang s presuppositional interpretation of incommensurability the real secret of incommensurability lies in the ontological set ups of two competing presuppositional languages this book provides many original contributions to the discussion of incommensurability and related issues in philosophy and offers valuable insights to scholars in other fields such as anthropology communication linguistics scientific education and cultural studies

is peace really so precious that it is popularly viewed in irenology peace studies of our time as natural and a prime force in human behavior whereas war its opposite is instead condemned as sinful and not natural in fact there is even the prestigious nobel peace prize to be awarded to those who contribute to world peace but not an equivalent nobel war prize to those who do the contrary this euphoric view of peace is by no means a constant conventional wisdom in human history as it can be sharply contrasted with an equally seductive view of war in polemology war studies for instance only several decades ago the well known writer thomas mann once approvingly asked about war is not peace an element of civil corruption and war a purification a liberation an enormous hope wk 2009a this fickleness of conventional wisdom on war and peace has blinded us from the dark sides of both war and peace with the consequence of impoverishing our understanding of the human condition and its future contrary to the two opposing sides of this conventional wisdom in its fickle history war and peace are neither possible nor desirable to the extent that their respective ideologues would like us to believe in addition war and peace cannot exist with each other of course this is not to suggest that irenology peace studies and polemology war studies are worthless or that other fields of study related to war studies and peace studies like political science economics psychology sociology international relations history anthropology religious studies gender studies as well as a variety of others should be ignored wk 2009 needless to say neither of these two extreme views is reasonable either instead this book accepts the challenging task to provide an alternative better way to understand the nature of war and peace especially in relation to aggression and pacifism while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other thus this book offers a new theory to transcend the existing approaches in the literature on war and peace in a way not conceived before if successful this seminal project is to fundamentally change the way that we think about war and peace from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what i originally called its post human fate

communication is an essential skill for nurses midwives and allied health professionals when delivering care to patients and their families with its unique and practical approach this new textbook will support students throughout the three years of their degree programme and on into practice focussing on how to develop person centredness and compassionate and collaborative care key features include students experiences and stories from service users and patients

to help readers relate theory to practice reflective exercises to help students think critically about their communication skills learning objectives and chapter summaries for revision interactive activities directly linked to the values exchange community website

pritchard provides a deliberate and convincing argument for a starting point for the discussion of moral development on in which self regard and empathy provide equally essential groundings for individual morality drawing essential elements from the work of reid strawson rawls kohlberg and gilligan he builds a comprehensive framework for tracing moral development from childhood one that allows human morality to be grounded in both reason and emotion and that recognizes the importance to morality of justice and rights as well as caring and responsibility

an authoritative legal reference work for all libraries published two years previously anderson s was one of the sources of black s law dictionary it provides judicially framed definitions whenever possible to illustrate the application of judicial principles with latin and norman french terms and brief biographies of prominent jurists
