presents a collection of fourteen essays that responds to the need for a more rhetorical conception of professional communication as an international discipline this book challenges the adequacy of relying on preconceived notions about the factors that determine discourse in international professional settings

in this volume methodological cultural technological and political boundaries felt by writers are analyzed translated and challenged in a way that will appeal to researchers theorists graduate students instructors and managerial audiences instead of extracting rules from previous research the contributors working from multidisciplinary perspectives describe and analyze the social and technological contexts surrounding nonacademic writing their essays present a formative rather than summative outlook toward future research on nonacademic writing collectively these chapters articulate a unique perspective toward nonacademic writing that considers the centrality of emerging communications technologies in nonacademic writing research and the need for a socio technological perspective new technologies reshape the concept of text and significantly impact the writing process and written products in nonacademic settings the relationship between the academy and the workplace a number of chapters challenge us sometimes from opposing perspectives to scrutinize our role as writing educators in preparing students for the workplace should we support the interests of corporate employers or should we resist those interests should we enculturate students in workplace writing practices by placing them in these environments or should we examine the tacit knowledge gained by workplace professionals and deliver this via classroom instruction new theory new research agendas contributors from diverse fields offer new theoretical lenses or use established lenses in innovative ways expanding the agenda for nonacademic writing research this volume represents the vision the social landscape demands for research and pedagogy in nonacademic writing

plain language and ethical action examines and evaluates principles and practices of plain language that technical content producers can apply to meet their audiences needs in an ethical way applying the buroc framework bureaucratic unfamiliar rights oriented and critical to identify situations in which audiences will benefit from plain language this work offers in depth profiles show how six organizations produce effective plain language content the profiles show plain language projects done by organizations ranging from grassroots volunteers on a shoe string budget to small nonprofits to consultants completing significant federal contacts end of chapter questions and exercises provide tools for students and

practitioners to reflect on and apply insights from the book reflecting global commitments to plain language this volume includes a case study of a european group based in sweden along with results from interviews with plain language experts around the world including canada england south africa portugal australia and new zealand this work is intended for use in courses in information design technical and professional communication health communication and other areas producing plain language communication it is also a crucial resource for practitioners developing plain language technical content and content strategists in a variety of fields including health literacy technical communication and information design

cross cultural communication is a collection of essays that examines how practitioners can improve the acceptance of their documentation when communicating to cultures other than their own the essays begin by examining the cross cultural issues relating to quality in documentation from there the essays look at examples of common documents analysing them from several perspectives specifically the author uses communication theories such as bernstein s elaborated and restricted code theory and marwell and schmidt s compliance gaining theory to show how documents used by readers who are not native speakers of english can be written and organized to increase their effectiveness the principal assumption about how practitioners create their documents is that while large organizations can afford to write translate and then localize small to medium size organizations produce many documents that are used directly by people in other cultures often without translating and localizing the advantage the writer gains from these essays is in understanding the strategies and knowing the kinds of strategies to apply in specific situations in addition the essays can serve as a valuable resource for students and teachers alike as they determine ways to understand how cross cultural communication is different and why it makes a difference not only do students need to be aware of the various strategies they may apply when creating documents for cross cultural settings they also need to see how research can apply theories from different areas in the case of these essays communication and rhetorical theories another value of the essays is to show the students the role standards play in cross cultural communication standards are written by committees that follow style rules developed by the international standardization organization in geneva thus both students and practitioners can find valuable cross cultural communication advice in these essays

containing a consistent rhetorical focus numerous helpful examples and figures with annotations and a strong organization and layout technical communication offers a contextual design and an emphasis on global communication and usability

testing
