this volume brings together leading investigators who integrate two distinct research domains in social psychology people s internal worlds and their close relationships contributors present compelling findings on the bidirectional interplay between internal processes such as self esteem and self

regulation and relationship processes such as how positively partners view each other whether they are dependent on each other and the level of excitement in the relationship methodological challenges inherent in studying these complex issues are described in depth as are implications for understanding broader aspects of psychological functioning and well being

this textbook provides an integrated and organized foundation for students seeking a brief but comprehensive introduction to the field of relationship science it emphasizes the relationship field s intellectual themes roots and milestones discusses its key constructs and their conceptualizations describes its methodologies and classic studies and most important presents the theories that have guided relationship scholars and produced the field s major research themes

interpersonal relationships are the core of our societal system and have been since before the dawn of civilization in today s world friends lovers companions and confidants make valuable contributions to our everyday lives these are the relationships whose members are not automatically participants as a result of their birth and kin affiliations the focus is on these relationships that must be forged from the sometimes indifferent and sometimes hostile world yet there is still much that is not known about how these relationships evolve how partners communicate in on going relationships how people keep their relationships together and how they cope when they fall apart primary to the focus of this book is the underlying theme of evolving interpersonal relationships from the initial encounter to the mature alliance the contributors to this volume provide a contemporary perspective for the study of interpersonal relationships fresh areas of scholarly inquiry are presented and existing approaches are re examined research in the introductory chapters breaks new ground and appraises the ultimate question of what impact initial interactions have on further relational development the mid section of the volume concerns communication issues that confront the members of a relationship in process focusing on how conflict and jealousy are communicated to a relational partner this research considers relational development as well as obstacles and barriers to evolving relationships the concluding chapters probe the question ultimately do all good things have to come to an end employing innovative techniques to examine maturing and disengaging relationships the research presented here focuses on how interpersonal relationships become committed and mature

to understand the influence of industrialization on interpersonal relations it is crucial to analyze the structural shifts that characterized this period the rise of factories and mass production methods meant that large numbers of workers were concentrated in urban centers leading to the emergence of

a new social order the factory system created environments where individuals from diverse backgrounds interacted on a daily basis fostering new forms of social relationships and networks however this proximity did not necessarily translate into solidarity or community indeed the rapid urbanization often bred isolation and alienation as individuals were uprooted from their traditional communities and support systems leading to feelings of disconnection in the bustling city life moreover the hierarchical structures of industrial workplaces altered the dynamics of interpersonal relations in contrast to the more egalitarian social structures prevalent in agrarian societies the industrial era saw the rise of a distinctly stratified social order employers and managers wielded significant power over their employees shaping the nature of interactions within the workplace as well as in the broader community the relationship between labor and management became characterized by conflict negotiation and sometimes antagonism particularly as workers began to organize for better conditions and rights the labor movement and the establishment of trade unions not only transformed the nature of work but also redefined interpersonal relations as collective action provided a platform for workers to unite and interact in new ways fostering solidarity among individuals who had previously been isolated in their struggles

despite a growing emphasis on relationship studies in interpersonal communication serious attention to the conceptual meaning of relationship has been limited the purpose of this volume is to explore the meaning and use of relationship in interpersonal communication studies the contributors to this volume representatives of related but differing perspectives outline definitional boundaries and conceptual implications of the term stemming from their particular ontological and epistemological approaches this volume provides an engaging and provocative examination of relationship by seasoned writers who are committed to seeing the field with new eyes as such the book will be invaluable to scholars and researchers in the field

this volume provides an overview of the theoretical and empirical work on relationship induced self concept change that has occurred over the last 10 15 years the chapters in this volume discuss the foundations of relationship self change how and when it occurs how it influences relationship decisions and behavior and how it informs and modifies subsequent knowledge structures all examined over the course of the relationship cycle i e initiation maintenance and dissolution additionally this volume identifies novel applications and extensions of the relationship self change literature including applications to health and behavior intergroup relations and the workplace among the topics discussed self disclosure in the acquaintance process commitment readiness bolstering attachment security through close relationships self concept clarity and self change the role of social support in promoting self development relationship dissolution and self concept change intergroup and sociocultural factors of self expansion self concept change at work measurement of relationship induced self concept change interpersonal relationships and the self concept serves both as a comprehensive overview of the existing empirical research as well as a roadmap for future research on self change including a discussion of emerging theoretical frameworks it will interest researchers focusing on romantic relationships self and identity and the intersection of self and relationships spanning the disciplines of psychology sociology communication and family studies

this is the ebook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book illustrates communication s role in human relationships this title introduces students to interpersonal communication principles and theories through the use of commonplace experiences such as relationships with roommates friends and co workers the book aims to motivate students to critically think about their own relational communication it also peaks student interest in social science research

the dark side of interpersonal communication examines the multifunctional ways in which seemingly productive communication can be destructive and vice versa and explores the many ways in which dysfunctional interpersonal communication operates across a variety of personal relationship contexts this second edition of brian spitzberg and william cupach s classic volume presents new chapters and topics along with updates of several chapters in the earlier edition all in the context of surveying the scholarly landscape for new and important avenues of investigation offering much new content this volume features internationally renowned scholars addressing such compelling topics as uncertainty and secrecy in relationships the role of negotiating self in cyberspace criticism and complaints teasing and bullying infidelity and relational transgressions reven and adolescent physical aggression toward parents the chapters are organized thematically and offer a range of perspectives from both junior scholars and seasoned academics by posing questions at the micro and macro levels the dark side of interpersonal communication draws closer to a perspective in which the darker sides and brighter sides of human experience are better integrated in theory and research appropriate for scholars practitioners and students in communication social psychology sociology counseling conflict personal relationships and related areas this book is also useful as a text in graduate courses on interpersonal communication ethics and other special topics
