ingram philosophy loyola university brings a variety of current social dilemmas together in a mutually illuminating way he examines the concept of legal equality in a multiracial society by considering issues such as self governance for native americans the rights of immigrants affirmative action and racial redistricting tie also tackles the problem of social injustice in a global setting by assessing the negative impact of free trade policies on the rights of groups to self determination and cultural integrity

the fiscal impact the 25 million immigrants now living in the united states have on the country s economy were studied focusing on the total taxes paid by immigrants each year and whether these taxes cover the costs of public services they use census data and other national studies were used to answer these questions overall it is apparent that immigrants and their children bring long term economic benefits to the united states the national research council nrc of the national academy of sciences has found that immigrants raise the incomes of u s born workers by at least 10 billion each year the nrc also estimates that the typical immigrant and his or her children pay 80 000 more in taxes than they will receive in federal state or local benefits over their lifetimes immigrants who become citizens typically pay more in taxes than do native born americans conservative estimates suggest that immigrant families paid 133 billion in direct taxes to federal state and local governments in 1997 the best predictors of immigrant payment of taxes are skills education and ability to speak english immigrants with lower levels of education and limited english proficiency are more likely to use government services the age profile of immigrants who tend to arrive in the prime of their working years makes them large net contributors to the social security and medicare programs the value of immigrants should not be measured simply by their fiscal impact the enrichment of culture and overall vitality they bring to the united states are benefits to all americans contains 9 tables 9 figures and 107 endnotes sld
