this book provides an introduction to africa covering its physical attributes history social structure and culture it emphasizes norms values and historical experiencesas the key variables that define who the people are rather than labeling them as tribes describes the main traditional cultural forms and institutionsfound in africa explores the geographyand demographyof the african continent takes a critical look at how the africans have done since they inherited or recovered political powerfrom the european colonial masters the problems they have encountered the forces that have influenced leaders in their choice of strategies in nation building or economic development political and economic reforms

this book examines the role that africa has played on the world stage the african union the african leaders efforts to take care of their own problems and lessen their dependence on the united states and european countries

this masterpiece of scholarship and compression the second edition of the african experience covers the entire span of human history across the african continent from the earliest emergence of hominids in eastern and southern africa up to the present day drawing on more than forty years of teaching and research professor oliver arranges the book thematically beginning with the human colonization of the different regions of africa the origins of food production and the formation of african languages the achievements of ancient egypt are placed in context with the developments in the rest of the continent and the spread of judaism christianity and islam peoples of the book the tradition of urban settlement is traced especially in western africa as well as the emergence of large and complex societies formed by the interaction of pastoralists and cultivators in eastern and southern africa the extent and nature of slavery in africa is fully discussed together with the external slave trade and the caravan trade in precolonial times this leads to an analysis of the strengths and weaknesses of african political systems and why from the early nineteenth century onwards these systems were unable to withstand political pressure from abroad and the ensuing colonization the colonial partition of africa saw the rapid amalgamation of small units through which considerable modernization was achieved at the expense of the indigenous structures and through the exploitation of the african peoples later chapters describe the birth of modern african nation states at a time of widespread belief in state planning now being questioned as the political elites of black africa begin to review their single party systems this new edition sees a number of revisions including a new chapter on the 1990s when the end of the cold war left africa free at last to try to solve its own problems

this book examines the role that africa has played on the world stage the african union the african leaders efforts to take care of their own problems and lessen their dependence on the united states and european countries

the state of virginia recognizes the 1619 landing of africans at point comfort present day hampton as a complicated beginning this collection of new essays reckons with this historical fact with discussions of the impacts 400 years later chapters cover different perspectives about the 20 and odd who landed offering insights into how enslavement continues to affect the lives of their descendants the often overlooked experiences of women in enslavement are discussed

eleven contributions explore security from a human rather than a state perspective and illustrate this by drawing on case material from sub saharan africa they offer an alternative to the realist state centered militaristic male dominated terrain of orthodox security and strategic studies and study such issues as feminist perspectives justice economic genocide in rwanda security in the new world order and the erosion of

the state and the decline of race annotation copyrighted by book news inc portland or

laws against strikes comprising contributions from south african italian and british legal scholars examines the right to strike in periods of socio economic crisis the book aims to contribute to the debates on this issue by comparing where a

many efforts have been undertaken to address dysfunctional security sector governance in west africa however security sector reform ssr has fallen short of radical transformational change to the fundamental structures of power and governance in the region looking more closely at specific examples of ssr in six west african countries learning from west african experiences in security sector governance explores both progress and reversals in efforts by national stakeholders and their international partners to positively influence security sector governance dynamics written by eminent national experts based on their personal experiences of these reform contexts this study offers new insights and practical lessons that should inform processes to improve democratic security sector governance in west africa and beyond
