this book provides instructors with a holistic way of thinking about learners learning and online course design the distinctive strategies derived from an integrated framework for designing the online learning experience help create an experience that is more personalized engaging and meaningful for online learners the focus of this book is on the learners and the design of their online learning experiences the authors refer to learning design instead of instructional design which focuses on instruction and places the instructor at the center stage of the process therefore the focus is on approaching a learner s online course experience as a journey consisting of a combination of learning interactions with content instructor and other learners in most online courses instructors and learners are separated in time and space and depend on technology to facilitate interactions that often lack a strong personal dimension as online learning continues to proliferate and mature the emphasis on simply making content available to students online is no longer acceptable creating online courses now requires a new way of thinking that incorporates new design ideas and approaches from a variety of fields it also requires a new set of learning design skills for instructors and course designers organized into eight chapters this volume focuses on enhancing online learning experiences for each of the major aspects of an online course providing evidence based principles and strategies to promote learner engagement and deep learning the concluding chapter provides an example illustrating a real world application of the principles and strategies covered in the book using design thinking to create learning experiences this book provides strategies for approaching the learning experience from an integrative perspective for both experienced online instructors and those new to online course design these strategies are based on evidence based learning design principles and encourage the reader to adopt an empathic mindset focused on the experience of the learner

members of today s online educational settings are often isolated which can prohibit the sharing of ideas and best practices among individuals working and learning as a

collective group promoting collaboration across various disciplines and departments fosters professional development activities as well as creates strong connections to the entire online community building online communities in higher education institutions creating collaborative experience cultivates knowledge on topics pertaining to the improvement of communication and collaboration in online learning communities advancing the current scope of research in this field this book is designed for use by faculty students researchers practitioners and college administrators interested in strengthening communication and collaboration in virtual settings

while online courses are said to be beneficial and many reputable brick and mortar higher education institutions are now offering undergraduate and graduate programs online there is still ongoing debate on issues related to credibility and acceptability there is some reluctance to teach online and to admit and hire students who have enrolled in online programs given these concerns it is essential that educators in online communities continue to share the significant learning experiences and outcomes that occur in online classrooms and highlight pedagogical practices used by online instructors to make their courses and programs comparable to those offered face to face the handbook of research on creating meaningful experiences in online courses is a comprehensive research book that examines the quality of courses in higher education that are offered exclusively online and details strategies and practices used by online instructors to create meaningful teaching and learning experiences in online courses featuring a range of topics such as gamification professional development and learning outcomes this book is ideal for academicians researchers educators administrators instructional designers curriculum developers higher education faculty and students
