carl jung made easy jung the key ideas is designed to quickly familiarize you with the revolutionary thinking of carl jung the founder of analytical psychology explaining jung s complex ideas in simple terms and backing it up with references to his own texts you will learn all the essential concepts from the collective unconscious to archetypes in dreams you will learn about jung s upbringing and the development of his thinking discover his

early work and influences and how they came to shape his ideological and spiritual development the intricacies of jung s complex systems of thought are discussed in a straightforward and jargon free way with particular focus on his lifelong fascination with the spiritual the numinous the inner world and the self realization of the unconscious jung s exploration of mythology dreams visions and fantasies as well as his studies into the journey of the psyche are all explained making often complex theories easy to get to grips with and the book also looks at his legacy and how his work and ideas have shaped psychology with many therapists still trained in the jungian method

volume 9 part 1

the collective unconscious a great old sea of knowledge is written about the collective unconscious this great old sea that i have described in this book holds many of the collective unconsciousness secrets there are also subdivisions and sub features that make up the unconscious one of which is an underworld with endless dark shadows and deep woods this is where many of the mind s secrets are found as well this book is a symbolic adventure in the depths of the soul in the collective there appears to be many different kinds of archetypes i use many types of patterns and even multi dimensional structures to describe their existence naturally thus actually turning the study of them into a form of art these deep still waters of this great old sea i explore have almost no end i wish for you to find what really is a great artistic view of the collective unconscious

all suppositions presented in this article have been moving us to better understanding the contents of the unconscious stratum of human psyche the ones which happen to be completely independent either from each other or racial or social factors even if we were to accept jung s theory of dividing man s psyche we think it would be his personal unconscious which contains some very definite individual structure or system meant to define his personal psychological and physiological characteristics because the unconscious sphere of one s psyche directly controls many physiological reactions the personal unconscious should be able to tell everything of one s personality not by examining it through its collective values but in the light of its individual archetypes it should be able to explain everything about a person with respect to his individual perception of the world and of himself his purpose his behavior both in the social and natural environment his strategies and tactics his way of thinking his unconscious motivations his needs emotions inclinations preferences meaning of his existence etc after reviewing both our practical and theoretical research and focusing on jung s theory as to the influence of

the collective unconscious on individual human psyche it would be essential to examine this issue from the standpoint of the psychology of individual distinctions it s obvious that without finding individual archetypal patterns as the basis for human personality solving any individual or social collective problems wouldn t be possible since any society consists of individuals constantly affecting one another download pdf at [humanpopulationacademy.org/uploads/publications/fromcarlgustavjungarchetypesofthecollectiveunconscious-to-individual-archetypal-patterns.pdf](http://humanpopulationacademy.org/uploads/publications/fromcarlgustavjungarchetypesofthecollectiveunconscious-to-individual-archetypal-patterns.pdf)

this book explores collective consciousness and how it is applied to the pursuit of gender justice in international law it discusses how the collective mode of behaviour and identity can lead to unconscious role playing based on the social norms expectations or archetypes of a group alexandra walker contends that throughout history men have been constructed as archetypal dominators and women as victims in casting women in this way we have downplayed their pre existing innate capacities for strength leadership and power in casting men as archetypal dominators we have downplayed their capacities for nurturing care and empathy the author investigates the widespread implications of this unconscious role playing arguing that even in countries in which women have many of the same legal rights as men gender justice and equality have been too simplistically framed as feminism and women s rights and that giving women the rights of men has not created gender balance this book highlights the masculine and feminine traits belonging to all individuals and calls on international law to reflect this gender continuum

the social unconscious is vital for understanding persons and their groupings ranging from families to societies committees to organisations and from small to median to large therapeutic groups and essential for comprehensive clinical work this series of volumes of contributions from an international network of psychoanalysts analytical psychologists group analysts and psychodramatists draw on the classical ideas of freud klein and jung bion foulkes and moreno and on contemporary relational perspectives self psychology and neuroscience volume 1 is concerned mainly with the theory of the social unconscious it is focused on topics such as location sociality the social brain identity ideology the foundation matrix social psychological retreats false collective self objects the collective unconscious and its archetypes and social dreaming
