a critical problem in resource scarce countries across the globe is the shortage of appropriately trained health care providers according to the world health organization the current global health workforce shortage of 7 2 million providers is estimated to increase to 12 9 million by 2035 this disproportionately affects resource scarce countries denying basic health care to millions and limiting access to life saving treatments due to limited resources in these countries not enough health professionals receive training few have the opportunity for continuing education and the ability to develop or implement educational programs and curricula is constrained additionally many existing providers choose to emigrate in pursuit

of professional advancement opportunities contributing to the overall shortage of qualified health care providers in these environments efforts to strengthen health workforce capacity not only increases access safety and availability of care but is critical to building resilient health systems capable of caring for the world's neediest populations this requires not only cultivating new health care providers but also providing ongoing professional development to retain and support current providers advancing the level of practice in accordance with current clinical science cultivating educators and enhancing training curricula it is critical also to contribute to the limited body of research documenting the effectiveness and impact of various models of collaborative education and partnership to improve health worker training and retention this research topic examines strategies for building health workforce capacity through the prism of educational partnerships offering significant examples of effective models of international collaborative education as well as insight and guidance on the structure and operation of successful global partnerships collectively the 31 articles accepted and included in this ebook represent a diversity of health professions and geographies across academic non governmental organizations and other global partnership forms the published manuscripts highlight various elements of partnerships with several consistent themes emerging capacity building local empowerment mutual trust and respect long term commitment equity collaboration and the importance of integrating theory and practice for a balance of academic and clinical development the manuscripts provide examples of partnership and educational programs that are in the formative early stages of implementation and others which have been sustained long term some for decades the following ebook is divided into two parts with each part broken down into sections part i of the ebook includes 18 manuscripts that showcase long term educational programs that strongly exemplify multiple foundational aspects of international partnerships in education including mutual collaboration and project management empowerment of host partners to lead and sustain programs and capacity building while individual manuscripts included in part i look broadly at multiple aspects of successful international partnerships in education part ii manuscripts focus intently on one two elements part ii includes 13 articles that highlight partnership through short rather than long term educational initiatives as well as program development and broad academic partnerships this research topic was sponsored by health volunteers overseas a united states based non profit that collaborates with over eighty international universities and health institutions to send volunteer health professionals to low resource countries to provide continuing education train the trainer courses professional support and consultation on academic program and curricula development

this book provides a comprehensive and up to date comparative study of the management and resolution of conflicts between conservation and recreation in protected areas in the us and china competing claims on the use of nature increasing regulation of land use and recreational activities and the conflicting goals between conservation and development have led to a rise in conflicts in the designation and management of protected areas how to effectively manage and resolve these conflicts has become a challenge for both legislators and managers by adopting an institutional dimension in legal interpretation this book critically examines how such conflicts are dealt with in the legal regimes of the us and china while exploring interactions between legislatures agencies and courts the book searches for a plausible solution to improve the legal framework of protected areas in china by

emulating pertinent mechanisms developed in the us whilst also presenting legal and policy recommendations to the us this informative book will be useful for legal scholars in chinese law nature conservation law administrative law and comparative law

in many ways divorce is a quintessentially personal decision the choice to leave a marriage that causes harm or feels unfulfilling to the two people involved but anyone who has gone through a divorce knows the additional public dimensions of breaking up from intense shame and societal criticism to friends and relatives unsolicited advice in intimate disconnections allison alexy tells the fascinating story of the changing norms surrounding divorce in japan in the early 2000s when sudden demographic and social changes made it a newly visible and viable option not only will one of three japanese marriages today end in divorce but divorces are suddenly much more likely to be initiated by women who cite new standards for intimacy as their motivation as people across japan now consider divorcing their spouses or work to avoid separation they face complicated questions about the risks and possibilities marriage brings how can couples be intimate without becoming suffocatingly close how should they build loving relationships when older models are no longer feasible what do you do both legally and socially when you just can t take it anymore relating the intensely personal stories from people experiencing different stages of divorce alexy provides a rich ethnography of japan while also speaking more broadly to contemporary visions of love and marriage during an era in which neoliberal values are prompting wide ranging transformations in homes across the globe

us families have been pushed to the wall at the bottom of the economic ladder poor and working class adults aren t forming stable relationships and can t give their kids the start they need because of low wages and uncertain job prospects toward the top professional parents lives have become a grinding slog of long hours of paid work meanwhile their kids are overstressed by pressure to succeed and get into good colleges in this provocative book maxine eichner argues that these very different struggles might seem unconnected but they share the same root cause the increasingly large toll that economic inequality and insecurity are taking on families it s government rather than families that s to blame

eichner persuasively contends since the 1970s politicians have sold families out to the wrongheaded notion that the free market alone best supports them in five decades of free market family policy they ve scrapped government programs and gutted market regulations that had helped families thrive the consequence is the steady drumbeat of bad news we hear about our country today the opioid epidemic skyrocketing suicide and mental illness rates deaths of despair and mediocre student achievement scores meanwhile politicians just keep telling families to work a little harder the free market family documents us families impossible plight showing how much worse they fare than families in other countries it then demonstrates how politicians free market illusions steered our nation wildly off course finally it shows how using commonsense measures we can restructure the economy to work for families rather than the reverse doing so would invest in our children s futures increase our wellbeing reknit our social fabric and allow our country to reclaim the american dream
