these cutting edge essays and case studies on issues like aids medical technologies and overpopulation are collected here in honour of charles leslie the influential anthropologist

this book traces the concept of idiocy as it has developed in fiction and film in the nineteenth and twentieth centuries it focuses particularly on visual images of idiocy and argues that writers as diverse as gustave flaubert fyodor dostoevsky joseph conrad john steinbeck flannery o connor and rohinton mistry and filmmakers such as jean renoir akira kurosawa alfred hitchcock werner herzog and john huston have all been attracted to idiot figures as a way of thinking through issues of language acquisition intelligence creativity disability religion and social identity martin halliwell provides a lively and detailed discussion of the most significant literary and cinematic uses of idiocy arguing that scientific conceptions of the term as a classifiable medical condition are much too narrow with the explosion of interest in idiocy among american and european filmmakers in the 1990s and the growing interest in its often overlooked history this book offers a timely reassessment of idiocy and its distinctive place at the intersection of science and culture

if the science of radical life extension is realized and the technology becomes widely available it would arguably have a more radical impact on humanity than any other development in history this book is the first concerted effort to explore implications of radical life extension from the perspective of the world s major religious traditions

explores the global changes in disability awareness technology and policy from the viewpoint of disabled people and their families in a range of local contexts this book reports on ethnographic research in brazil uganda botswana somalia britain israel china india and

japan it addresses the definition of human rights in local contexts
