enforcement has not been the most practiced business in the field of human rights in ethiopia the absence of effective enforcement can be attributed to various factors including the absence of a normative framework insufficient political commitment inadequate institutional capacity and resources and limited awareness despite recent legal reform initiatives purportedly driven by human rights demands it

remains uncertain whether enforcement has undergone any significant changes effective enforcement of human rights necessitates the existence of robust multi layered institutions at the national sub regional regional and international levels however in ethiopia concerns have been raised about the capability of numerous normative instruments and mechanisms of human rights this volume comprises a collection of papers presented at a hybrid conference held at the hilton hotel addis in april 2022 the conference organized by the school of law of addis ababa university in collaboration with friedrich ebert stiftung ethiopia centered around the theme enforcement of human rights in ethiopia old and new challenges its primary objective was to identify and analyze both old and new challenges in human rights enforcement in ethiopia and propose strategies to overcome them the editors of this volume intend for it to address scholarly gaps in the implementation and enforcement of human rights in ethiopia among the notable findings from the chapters included in this volume is a significant disparity between recently reformed laws passed by the parliament and their execution by the executive body this disconnect demonstrates a failure to prioritize and enforce human rights in the country as such the volume suggests that the ethiopian government must take the business of human rights enforcement seriously

the origin of the black jews of ethiopia has long been a source of fascination and controversy their condition and future continues to generate debate the culmination of almost a decade of research the beta israel falasha in ethiopia marks the publication of the first book length scholarly study of the history of this unique community

black journalists have vigorously exercised their first amendment right since the founding of freedom s journal in 1827 world war ii was no different in this regard and paul alkebulan argues that it was the most important moment in the long history of that important institution american historians have often postulated that wwii was a pivotal moment for the modern civil rights movement this argument is partially based on the pressing need to convincingly appeal to the patriotism and self interest of black citizens in the fight against fascism and its racial doctrines this appeal would have to recognize long standing and well known grievances of african americans and offer some immediate resolution to these problems such as increased access to better housing and improved job prospects 230 african american newspapers were prime actors in this struggle black editors and journalists gave a coherent and

organized voice to the legitimate aspirations and grievances of african americans for decades prior to wwii in addition they presented an alternative and more inclusive vision of democracy the african american press in world war ii toward victory at home and abroad shows how they accomplished this goal and is different from other works in this field because it interprets wwii at home and abroad through the eyes of a diverse black press alkebulan shows the wide ranging interest of the press prior to the war and during the conflict labor union struggles equal funding for black education the criminal justice system and the italian invasion of ethiopia were some of subjects covered before and during the war historians tend to write as if the african american press was ideologically homogenous but according to alkebulan this is not the case for example prior to the war african american journalists were both sympathetic and opposed to japanese ambitions in the pacific a philip randolph s socialist journal the messenger accurately warned against imperial japan s activities in asia during wwi there are other instances that run counter to the common wisdom during world war ii the negro newspaper publishers association not only pursued equal rights at home but also lectured blacks military and civilian about the need to avoid any behavior that would have a negative impact on the public image of the civil rights movement the african american press in world war ii explores press coverage of international affairs in more depth than similar works the african american press tended to conflate the civil rights movement with the anti colonial struggle taking place in africa asia and the caribbean alkebulan demonstrates how george padmore and w e b du bois were instrumental in this trend while it heightened interest in anti colonialism it also failed to delineate crucial differences between fighting for national independence and demanding equal citizenship rights in one s native land
