deals with the years immediately preceding the partition of india and takes up issues of land language immigration and identity in assam where they continue to occupy public space the effects of the partition continue to hang as a spectre over the entire region in assam s case its recent history seems to have subsumed its glorious past with geography playing a crucial role in determining its present position vis a vis the indian state the author outlines the present contentious issues in the state which seem to defy any solution and which are increasingly adding to the growing human tragedy of the region in the light of developments which occurred in the pre and post partition years

germans are often accused of failing to take responsibility for nazi crimes but what precisely should ordinary people do differently indeed scholars have yet to outline viable alternatives for how any of us should respond to terror and genocide and because of the way they compartmentalize everyday life our discipline bound analyses often disguise more than they illuminate written by a historian literary critic philosopher and theologian the happy burden of history takes an integrative approach to the problem of responsible selfhood exploring the lives and letters of ordinary and intellectual germans who faced the ethical challenges of the third reich it focuses on five typical tools for cultivating the modern self myths lies non conformity irony and modeling the authors carefully dissect the ways in which ordinary and intellectual germans excused their violent claims to mastery with a sense of sovereign impunity they then recuperate the same strategies of selfhood for our contemporary world but in ways that are self critical and humble the book shows how viewing this problem from within everyday life can empower and encourage us to bear the burden of historical responsibility and be happy doing so

this book is an ethnography of the cultural politics of native non native relations in a small interior bc city williams lake at the height of land claims conflicts and tensions furniss analyses contemporary colonial relations in settler societies arguing that ordinary rural euro canadians exercise power in maintaining the subordination of aboriginal people through common sense assumptions and assertions about history society and identity and that these cultural activities are forces in an ongoing contemporary system of colonial domination she traces the main features of the regional euro canadian culture and shows

how this cultural complex is thematically integrated through the idea of the frontier key facets of this frontier complex are expressed in diverse settings casual conversations among euro canadians popular histories museum displays political discourse public debates about aboriginal land claims and ritual celebrations of the city s heritage in each setting furniss shows how these cultural practices contribute to the marginalization of area shuswap sepwecemc tsilhqot in chilcotin and carrier peoples and how area native people are continually engaging in diverse and innovative modes of resistance to the dominant regional culture

the 19th century saw the creation of the modern heritage movement and the origins of scientific archaeology the papers in this book discuss the characters and institutions which shaped the birth of a discipline

ceremony and civility in english renaissance prose analyzes the emergence of civil prose in texts of the early modern period and defends english renaissance writers against the current attack on their aristocratic politics using thomas more s history of king richard iii philip sydney s defense of poetry richard hooker s laws of ecclesiastical polity and thomas browne s religio medici anne hall demonstrates the emerging differentiation of civil and ceremonial prose in the early modern period these works combine ceremonial discourse acknowledging such traditional values as a god centered world and civil prose with its circumspections and irony thus revealing a philosophical awareness of the complexity of moral and political questions since the 1970s there have been two chief arguments about renaissance literature the first is that most renaissance writers used traditional forms to bolster authority and that they should be regarded with suspicion the second is that some renaissance writers altered traditional forms to subvert authority and that they should be admired anne hall contends that there is an alternative position that many renaissance writers used tradition to bolster authority and that their versions of tradition and authority deserve a defense that responds to current attacks on their racism violence and colonialist repression in texts that

were once thought to be about love and education hall argues that renaissance writers could not foresee the ways in which they would need to defend their position against enlightenment attack and she supplies what she believes would have been their defense concluding that such renaissance discourse must not be considered solely on a historical basis but also from a philosophical viewpoint
