since the earliest european settlers arrived in the area over two centuries ago kentuckians have felt a deep attachment to the land from subsistence farmers in eastern kentucky to wealthy home owners in the central bluegrass land was and continues to be the state's greatest source of economic growth it is also a point of nostalgia for a people devoted to tradition a characteristic that has enriched kentucky's culture but has proven detrimental to education and development as timely now as when it was first published thomas d clark's classic history of agrarianism prepares readers for a new century that promises to bring rapid change to the land and the people of kentucky

profiles the life of frontiersman george rogers clark who during the revolutionary war led the virginia militia to victory over the british on the wilderness frontier

for general george s patton leadership is the thing that wins battles i have it but i'll be damned if i can define it probably it consists in knowing what you want to do and then doing it and getting mad if anyone steps in the way self confidence and leadership are twin brothers indeed patton excelled at virtually every dimension of leadership most vitally as a war commander his record as a general is clear the larger more armored and better supplied his armies and the freer he was to decide what to do with them the more rapid and further they advanced to inflict more defeats on the enemy in that no other american army commander matched him during world war ii that ranks patton among the valhalla of america's greatest generals with him most resembling thomas stonewall jackson and nathan bedford forrest as a fast moving hard hitting commander who repeatedly outflanked and devastated enemy forces patton led from the front and tried to inspire his troops by being a model officer who exemplified bravery problem solving tactical brilliance and decisiveness he was in near constant motion from his headquarters to rear echelon and front line troops everywhere exhorting them to greater efforts and overcoming challenges at times enduring shell fire strafing mines snipers and other dangers his greatest attribute was his drive to be the best at whatever he chose or was ordered to do he recognized that developing a successful military career depended not just on will and chance but on incessant training and study yet he believed that instincts were just as vital as skills in being a successful leader i have a sixth sense in war and can put myself in the enemies head and i am also willing to take chances patton harbored plenty of flaws he was a narcissist who constantly strove to be center stage and outshine his rivals he contrived an idealized version of himself as the epitome of the brilliant general and fearless soldier immaculately dressed and spent his life playing that role he was a braggart who regaled listeners with at times exaggerated tales of his past deeds and those yet to come his boasting did have one positive element he sought to surpass his past glories with greater future victories patton seesawed between elation and despair rage and compassion he could chew out a subordinate for some mistake in the morning and comfort him for a similar mistake in the afternoon his quick temper and provocative views often overpowered his self control twice that cost him an army command during germany's occupation in august 1945 he casually quipped to several reporters that being a nazi in germany was no different from being a republican or democrat in the united states for that eisenhower relieved him from third army's command most notoriously during the sicily campaign he slapped two soldiers suffering combat fatigue that he accused of malingering general george s patton and the art of leadership is his most psychologically penetrating biography that captures the paradoxical character behind his brilliant military feats and often dismaying failures throughout patton explains his values and deeds through hundreds of quotes along with scores of insights from those who knew him comrades and critics alike
