après un chapitre sur les tendances de l'innovation en matière de formation pédagogique des enseignants aux états unis au canada en angleterre l'auteur concentre son étude sur des cas concrets d'innovation en australie programmes d'auto instruction situations simulées écoles laboratoire à l'intérieur du collège etc

this handbook brings together scholarship from various subfields disciplinary traditions and geographic and geopolitical contexts to understand how student voice is operating in different higher education dimensions and contexts around the world the handbook helps not only to map the range of student voice practices in college and university settings but also to identify the common core elements enabling conditions constraints and outcomes associated with student voice work in higher education it offers a broad understanding of the methodologies current debates history and future of the field identifying avenues for future research

autoethnography for librarians and information scientists illustrates that autoethnography is a rich qualitative research method that can enhance understanding of one's own work experiences whilst also facilitating the design of tailored experiences for a variety of audiences starting with the position that librarians and information scientists require deep insight into people's experiences needs and information behaviour in order to design appropriate services and information interventions this book shows that using only

conventional methods such as questionnaires and focus groups is insufficient arguing that autoethnography can provide unique insights into users cultural experiences and needs contributors to this volume introduce the reader to different types of autoethnography highlighting common challenges and clarifying how autoethnography can be combined with other research methods this book will empower librarians and information scientists to conceptualise topics for autoethnographic research whilst also ensuring that they adhere to strict ethical guidelines chapters within the volume also demonstrate how to produce autoethnographic writing and stress the need to analyse autoethnographies produced by others autoethnography for librarians and information scientists is essential reading for any librarian information scientist or student looking to deepen their understanding of their own experiences it will be particularly useful to those engaged in the study of service provision user studies and information behaviour

a discussion of contemporary issues in australian study centers for distance education students introduces six case studies which show how some institutions in australia have endeavored to set up study centers or borrow existing local facilities to provide a measure of support for their students attempts to set up a telecommunications network at some centers for staff and student interaction are also described as well as approaches which stress more direct interaction between teaching staff and students there are two emerging patterns in the provision of study center facilities 1 the willingness and effort of some institutions to pool resources or to share with others and 2 the increasing difficulty of funding study centers an abstract is provided for each of the studies and a selected annotated bibliography lists materials on study centers and their functions and on applications of new technology in student support djr
