english literature available on chassidus has increased tenfold throughout the years having us witness a real breakthrough in this regard hundreds of classical chassidic texts have been translated and annotated by renowned writers and publishers the monumental work of tanya has been translated explained and disseminated in english throughout all corners of the globe nonetheless we find that one of the greatest works of chassidic thought has not yet found its way onto the english bookshelf the mamarim of torah or and likkutei torah of the alter rebbe these works are considered to be the oral torah of the tanya and are hence complementary to it the mamarim of torah or and likkutei torah are the foundation of most of the mamarim of chassidus of all the later generations one of the reasons for the lack of an english counterpart for this sefer is because of its great depth and advanced kabbalistic jargon it is our great honor to offer the english speaking public the first full english counterpart for the great illustrious works of torah or and

likkutei torah the sefer includes a single mamar per parsha which is summarized explained and brought into practical application for the reader the mamarim are not a direct translation of the hebrew original but rather a content summary of the mamar at times due to the extended length of a certain mamar we may only summarize a certain section of the mamar and not the mamar in its entirety each parsha features a single selected mamar from amongst the many mamarim that are printed in the hebrew original giving our readers a taste and glimpse of the full content of this monumental work our main goal is for the reader to receive the content knowledge of the most fundamental mamarim written by the alter rebbe and for him to be given the tools for how to implement this knowledge within his daily life each mamar concludes with a lessons box that summarizes the practical life lessons that we can derive from the mamar also included are interesting parables that we find easy to relate to and help us to digest the content being studied and internalize it it is our heartfelt prayer that the mamarim in this sefer will uplift your spiritual experience and give you spiritual hope faith love and trust in hashem being the light that illuminates your relationship with g d

at the end of the eighteenth century the hasidic movement was facing an internal crisis to what extent should the teachings of baal shem tov and maggid of mezritch with their implicit spiritual demands be transmitted to the rank and file of the movement previously these teachings had been reserved for a small elite it was at this point that the habad school emerged with a communication ethos encouraging the transmission of esoteric to the broad reaches of the jewish world communicating the infinite explores the first two generations of the habad school under r shneur zalman of liadi and his son r dov ber and examines its early opponents beginning with the different levels of communication in the teachings of the baal shem tov and the maggid and his disciples naftali loewenthal traces the unfolding of the dialectic between the urge to transmit esoteric ideas and a powerful inner restraint gradually r shneur zalman came to the fore as the prime exponent of the communication ethos loewenthal follows the development of his discourses up to the time of his death when r dov ber and r aaron halevi horowitz formed their respective lubavitch and staroselye schools the author continues with a detailed examination of the teachings of r dov ber an inspired mystic central in his thought was the esoteric concept of self abnegation bitul yet this combined with the quest to communicate hasidic teachings to every level of society including women from the late eighteenth century onwards the main problem for the jewish world was posed by the fall of the walls of the social and political ghetto generally the response was either to secularize or abandon altogether traditional judaism or to retreat from the threatening modern world into enclave religiosity by stressing communication the habad school opened the way for a middle range response that was neither a retreat into elitism nor an abandonment of tradition based on years of research from hebrew and yiddish primary source materials communicating the infinite is a work of importance not only to specialists of judaic studies but also to historians and sociologists

the compelling vision of religious life and practice found in hasidic sources has made it the most enduring and successful jewish movement of spiritual renewal of all time in this book ariel evan mayse grapples with one of hasidism s most vexing questions how did a religious movement known for its radical views about immanence revelation and the imperative to serve god with joy simultaneously produce strict adherence to the structures and obligations of jewish law exploring the movement from its emergence in the mid 1700s until 1815 mayse argues that the exceptionality of hasidism lies

not in whether its leaders broke or upheld rabbinic norms but in the movement's vivid attempt to rethink the purpose of Jewish ritual and practice rather than focusing on the commandments as law he turns to the methods and vocabulary of ritual studies as a more productive way to reckon with the contradictions and tensions of this religious movement as well as its remarkable intellectual vitality mayse examines the full range of Hasidic texts from the eighteenth and early nineteenth centuries from homilies and theological treatises to hagiography letters and legal writings reading them together with contemporary theories of ritual arguing against the notion that spiritual integrity requires unshackling oneself from tradition laws of the spirit is a sweeping attempt to rethink the meaning and significance of religious practice in early Hasidism
