a new framework for understanding the underpinnings of real estate property value and the role it plays in the larger economy value in a changing built environment examines the professional foundations on which the valuation exercise and the valuation profession rest written by noted experts in the field the book addresses the often limited understanding of the concept of property value by explaining the intrinsic linkages between economic environmental social and cultural measures and components of property value the book offers a framework that paves the way towards a more holistic approach to property value value in a changing built environment unwraps many of the traditional assumptions that have underpinned market participants decision making over the last few decades the authors explore the concept that a blindfold application of valuation theories and approaches adopted from finance is unlikely to be able to cope with the nature of property as an economic and public good this vital resource explains the criteria for making estimates of value that can be applied worldwide offers an integrated approach to property value and the valuation processes captures the often illusive intangibles such as environmental performance into valuation addresses a market failure to account for wider criteria on building performance value in a changing built environment examines how real estate valuation plays a pivotal role in decision making and how can a new body of knowledge improve the practice in both business and social domains

today our society has become increasingly competitive making it ever more challenging for those aiming to achieve lasting happiness and success the laws of invincible leadership provides the golden rules for anyone aspiring to become an invincible leader and cultivate a management mindset both in life and in business this book offers a breakthrough philosophy of success based on the belief that we can achieve continuous success in all the situations we face in life and in enterprise it also offers expert advice and real life modern examples of how to develop strategies tactics as well as the mentality and ability that you need to become a successful top manager don t let failures challenges and adversity stop you from achieving happiness and success let the laws of invincible leadership help you seize opportunities for

continuous success in the face of any difficulty

the escalating interdependency of nations drives global geopolitics to shift ever more quickly societies seem unable to control any change that affects their cities whether positively or negatively challenges are global but solutions need to be implemented locally how can architectural research contribute to the future of our changing society how has it contributed in the past the theme of the 10th eaae arcc international conference architectural research addressing societal challenges was set to address these questions this book architectural research addressing societal challenges includes reviewed papers presented in june 2016 at the 10th eaae arcc international conference which was held at the facilities of the faculty of architecture of the university of lisbon the papers have been further divided into the following five sub themes a changing society in transit global migration renaturalization of the city emerging fields of architectural practice and research on architectural education the eaae arcc international conference held under the aegis of the eaae and of the arcc is a conference organized every other year in collaboration with one of the member schools universities of those associations alternatively in north america or in europe

as it currently operates the commercial real estate construction industry is a disaster full of built in waste seventy percent of all projects end over budget and late the buildingsmart alliance estimates that up to fifty percent of the process is consumed in waste almost every project includes massive hidden taxes in the form of delays cost overruns poor quality and work that has to be redone building new structures is a fragmented adversarial process that commonly results in dissatisfied customers and frequently ends in disappointment bitterness and even litigation the industry must change for its own good and that of its customers but while the industry has tried to reform itself it can't do it alone real change can only come from business owners and executives who refuse to continue paying for a dysfunctional system and demand a new way of doing business the commercial real estate revolution is a bold manifesto for change from the mindshift consortium a group of top commercial real estate industry leaders who are fed up with a system that simply doesn't work the book explains how business leaders can implement nine principles for any project that will dramatically cut costs end delays create better buildings and force the industry into

real reform the commercial real estate revolution offers a radically new way of doing business a beginning to end trust based methodology that transforms the building process from top to bottom based on unifying principles and a common framework that meets the needs of all stakeholders this new system can reform and remake commercial construction into an industry we're proud to be a part of if you're one of the millions of hardcore cynics who work in commercial construction you probably think this sounds like pie in the sky but this is no magic bullet it's a call for real reform if you're an industry professional who's sick of letting down clients or an owner who's sick of cost overruns and endless delays the commercial real estate revolution offers a blueprint for fixing a broken industry

ethical considerations of virtual reality in the college classroom collects case studies that address both pedagogical and ethical foundations of extended reality tools in postsecondary learning environments across disciplines with today's institutional programs and faculty leveraging cutting edge virtual augmented and mixed reality opportunities to teach and promote achievement goals it is imperative that new research into these technologies speaks directly to their challenges and affordances within broad academic settings this book showcases real world examples of faculty members who chronicle and develop their use of vr tools across learning contexts and student populations by creating their own digital experiences adapting open source tools integrating commercial products amplifying crucial course content analyzing outcomes data and more nontechnical readers will come away with a new understanding of key terms and concepts associated with virtual reality and essential heuristics for evaluating the ethical implications of immersive approaches
