this book demonstrates the utility of healthcare law policy and professional standards in analysing the ethical issues that arise in the provision of health services rejecting moral absolutes its examination of health law policy and professional standards and of how societies codify beliefs is pertinent to ethical analysis and also offers the possibility of practical solutions to healthcare challenges across the globe comparing and contrasting ethical and policy issues from countries around the world with a focus on

asia europe and the usa this book addresses such issues as conflict of interest the balance between healthcare quality and cost and the effect of geography and demographics on access to healthcare critique and discussion are tempered with suggestions for the evaluation of policy and systems its pragmatic approach suggests how theory can and should inform practice health policy and ethics offers refreshing reading for professionals and academics in healthcare medical ethics and policy researchers and students with an interest in healthcare delivery comparative healthcare policy analysis and health and human rights will also find much of interest this book offers an unusual and welcome perspective on the rights and wrongs of health policy with comparisons across space and time from china to italy from malaysia to india from pharmaceutical ethics to the overarching topic of rationing theodore marmor professor emeritus yale university school of management ethical analysis in this domain is not easy as things held sacred will at times conflict and of course within a given society there will be variability in values and priorities between individuals and over time the anticipated difficulties serve to further emphasize that the ongoing ethical analysis should include input from those with experience and skill at that task this book successfully demonstrates that point in addition health policy and ethics is a welcome bridge between these two fields and a very worthwhile read for individuals whose primary interest lies in either one from the foreword by mark r mercurio

the first edition of the acp ethics manual published in 1984 has been updated to keep pace with current issues on medical ethics prepared by the acp ethics committee the second edition includes a greatly expanded section on initiating and withdrawing life sustaining treatment the ethics of cost containment and aids are addressed and a subsection titled medical risk to the physician

has been added
