how has a theory of man as a social being to be formulated if we are to do justice to his individuality to the subtle ways in which his love and hate compete within his relations with others and to the anxieties and resistances he shows when he seeks to change himself to answer this question is the task which the author sets himself after assessing freud s basic principles the author proceeds to make a uniquely comprehensive review of subsequent theoretical contributions to psychoanalysis with special emphasis on the work of fairbairn and melanie klein from a background of philosophy theology and social studies the author went on to take a personal psychoanalysis and to become a full time psychotherapist and it is from this combination of wide knowledge and intensive work with people beset by conflicts in their relations with themselves and others that he evolves his views

we perceive the world in which we live through our senses and make sense of it using our minds in this way we construct our very own consensus realities our subjective interpretations of the world as each one of us perceives and understands it what do we know about how we construct our consensus realities how do human body and mind connect as they somehow must to give us the experience of the world that we know we have the first three book chapters invite the reader to explore what the human brain philosophy of mind and psychology can tell us about the relationship between the human body and mind we all are curious about those things and exploring them is possible for all of us we have no other choice than to form our own consensus realities as it is through them that we can make sense of us in this world many consensus realities only deviate from objective reality in as much as our personal vanity goes to make us more comfortable with who we are others however can seemingly dissociate themselves to much greater degrees from objective reality endorsing fake news and false narratives creating their own make believe worlds in the process the fourth book chapter looks into some of the implications that has had in the past and might have in the future
