in this classic text now in its fourth edition gilbert rist provides a complete and powerful overview of what the idea of development has meant throughout history he traces it from its origins in the western view of history through the early stages of the world system the rise of us hegemony and the supposed triumph of third worldism through to new concerns about the environment and globalization in a new chapter on post development models and ecological dimensions written against a background of world crisis and ideological disarray rist considers possible ways forward and brings the book completely up to date throughout he argues persuasively that development has been no more than a collective delusion which in reality has resulted only in widening market relations whatever the intentions of its advocates

regional studies is inextricably intertwined with history cultural and institutional legacies inform choices between different policy options meaning that the past plays a crucial role in how we think about regional economic development planning and policy through a selection of accessible theoretical methodological and empirical chapters this book explores the connections between regional development and history drawing on the expertise of scholars in several disciplines it links history to topics such as behavioural geography interdependence divergence and regional and urban policy this innovative book will be of interest to researchers across regional studies planning economic geography and economic history

this book presents a comprehensive account of the history of the grand canal of china which is over 6 000 miles long and more than 2 500 years old the grand canal of china flows through beijing tianjin hebei henan shandong jiangsu and zhejiang connecting the five major water systems of the hai river huai river yellow river yangtze river and qiantang river as well as the central plains culture jiangnan culture and other cultural resources the book s core content revolves around 21 pivotal cities

along the canal it draws upon a rich tapestry of authentic historical accounts local chronicles poetic traditions ming and qing era novels and a plethora of other vivid materials it encompasses a comprehensive range of subjects including culture geography commerce water conservancy and other aspects related to the grand canal it examines the historical and cultural resources associated with the grand canal providing a systematic organization of the cultural assets and modes of life that have developed along its route the text also explores the significant role that this waterway has played in shaping the spiritual identity of the chinese people and the nation as a whole

a radical history of development studies traces the history of the subject from the late colonial period all the way through to contemporary focus on poverty reduction in this now classic genealogy of development the authors look at the contested evolution and roles of development institutions and explore changes in development discourses combining personal and institutional reflections with an examination of key themes including gender and development ngos and natural resource management a radical history of development studies challenges mainstream development theory and practice and highlights concealed critical discourses that have been written out of conventional stories of development the volume is intended to stimulate thinking on future directions for the discipline it also provides an indispensable resource for students coming to grips with the historical continuities and divergences in the theory and practice of development

this bold and ambitious handbook is the first systematic overview of the history of development ideas themes and actors in the twentieth century taking stock of the field the book reflects on blind spots points out avenues for future research and brings together a greater plurality of regions actors and approaches than other publications on the subject the book offers a critical reassessment of how historical experiences have shaped contemporary understandings of development demonstrating that the seemingly self evident concept of development has been contingent on a combination of material conditions power structures and policy choices at different times and in different places using a world history approach the handbook highlights similarities in development challenges across time and space and it pays attention to the meanings of ideological cultural and economic divides in shaping different understandings and practices of development taking a thematic approach the book shows how different actors governments non governmental organizations individuals corporations and

international organizations have responded to concerns regarding the conditions in their own or other societies such as the provision of education health or food approaches to infrastructure development and industrialization the adjustment of social conditions population policies and migration and the maintenance of stability and security bringing together a range of voices from across the globe this book will be perfect for advanced students and researchers of international development history

in this book some of the leading thinkers in development studies trace the history of their multi disciplinary subject from the late colonial period and its establishment during decolonization all the way through to its contemporary concerns with poverty reduction they present a critical genealogy of development by looking at the contested evolution and roles of development institutions and exploring changes in development discourses these recollections by those who teach research and practise development challenge simplistic unilinear periodizations of the evolution of the discipline and draw attention to those ongoing critiques of development studies including marxism feminism and postcolonialism which so often have been marginalized in mainstream development discourse the contributors combine personal and institutional reflections with an examination of key themes including gender and development ngos and natural resource management the book is radical in that it challenges orthodoxies of development theory and practice and highlights concealed critical discourses that have been written out of conventional stories of development the contributors provide different versions of the history of development by inscribing their experiences and interpretations some from left inclined intellectual perspectives their accounts elucidate a more complex and nuanced understanding of development studies over time simultaneously revealing common themes and trends and they also attempt to reposition development studies along a more critical trajectory the volume is intended to stimulate new thinking on where the discipline may be moving it ought also to be of great use to students coming to grips with the historical continuities and divergences in the theory and practice of development

leading historians and policy advisors explore the implications of incorporating historical sensibilities into key development policy issues

offers cutting edge perspectives on how international development has shaped the global history of the modern world
