the classic book that introduced the investment industry to the concept of trading psychology with rare insight based on his firsthand commodity trading experience author mark douglas demonstrates how the mental matters that allow us function effectively in society are often psychological barriers in trading after examining how we develop losing attitudes this book prepares you for a thorough mental housecleaning of deeply rooted thought processes and then it shows the reader how to develop and apply attitudes and behaviors that transcend psychological obstacles and lead to success the disciplined trader helps you join the elite few who have learned how to control their trading behavior the few traders who consistently take the greatest percentage of profits out of the market by developing a systematic step by step approach to winning week after week month after

month the book is divided into three parts an overview of the psychological requirements of the trading environment a definition of the problems and challenges of becoming a successful trader basic insights into what behavior may need to be changed and how to build a framework for accomplishing this goal how to develop specific trading skills based on a clear objective perspective on market action a groundbreaking work published in 1990 examining as to why most traders cannot raise their equity on a consistent basis bringing the reader to practical conclusions to go about changing any limiting mindset larry pesavento tradingtutor com

getabstract summary get the key points from this book in less than 10 minutes author mark douglas explains that he lost almost everything he owned because of bad trading decisions the experience led him to rigorous self examination and he discovered that emotions especially fear had led him to trade imprudently he went on to write this straightforward very penetrating explanation of the role of beliefs and emotions in trading this is not an abstract academic exercise douglas is a trader talking to traders he is thorough and practical in his analysis and advice at times his style may be awkward stilted and even cumbersome however these flaws do not prevent him from communicating important useful information although the book is specifically about emotional and psychological factors as they affect trading readers are likely to notice that these influences are active in other dimensions of their lives as well getabstract finds that this is quite a good little book that has stood the test of time despitess changes in the technology of trading book publisher copyright 1990 by mark douglasused by arrangement with prentice hall press a division of penguin group usa inc penguin com 1 800 253 6476

douglas uncovers the underlying reasons for lack of consistency and helps traders overcome the ingrained mental habits that cost them money he takes on the myths of the market and exposes them one by one teaching traders to look beyond random outcomes to understand the true realities of risk and to be comfortable with the probabilities of market movement that governs all market speculation

day trading is undoubtedly the most exciting way to make money from home it s also the riskiest before you begin you need three things patience nerves of steel and a well thumbed copy of day trading for dummies the low risk way to find out whether day trading is for you this plain english guide shows you how day trading works identifies its all too numerous pitfalls and get you started with an action plan from classic and renegade strategies to the nitty gritty of daily trading practices it gives you the knowledge and confidence you ll need to keep a cool head manage risk and make decisions instantly as you buy and sell your positions learn how to set up your accounts and your office connect with research and trading services plan and research trades carefully and thoroughly comply with regulations issues and tax requirements leverage limited capital cope with the stress quick action trading sell short to profit from price drops evaluate your day trading performance use technical and fundamental

analysis find entry and exit points use short term trading to establish a long term portfolio you'll also find top ten lists of good reasons to go into day trading or run from it in terror as well as lists of the most common and expensive mistakes day traders make read day trading for dummies and get the tips guidance and solid foundation you need to succeed in this thrilling lucrative and rewarding career

trading is the hardest way to make easy money new traders are often led to believe that trading must be easy which is true to some extent it has certainly never been easier to trade barriers to entry are low and you have unlimited earning power you can trade whenever and wherever you like using any of the numerous markets that are available to choose from and you can select a low cost platform from among the many platforms available but new traders soon realise that what is generally called common sense does not work in trading what they have been taught that there is a right way and a wrong way does not seem to apply to trading why the answer is simple our brains are not naturally wired for trading but they can be rewired and you will find out how in this book whether you are a beginner or an experienced trader reading badass trader can be a valuable way to learn grow and improve your trading skills setting you on a path to financial well being while both informative and practical the book will also help to rewire your mind stacking the odds of trading success in your favour so that you can get profitable quicker

a practical guide covering everything the serious trader needs to know while a variety of approaches can be used to analyze financial market behavior and identify potential trading investing opportunities no approach is completely accurate the challenge for traders is to find a method that they feel comfortable with and are able to implement consistently through the normal ups and downs of trading the trading course provides you with a detailed description of the methods used to analyze markets spot profitable trading opportunities and properly execute trades page by page this book references different trading methodologies but focuses specifically on applying them when attempting to identify good trades discusses the principles of price behavior trends trade set ups trade execution and intermarket relationships details different trading tools and techniques including japanese candlesticks elliott wave dow theory momentum indicators and much more if you want to become a successful trader you have to be prepared this book will show you what it takes to make it in this field and how you can excel without getting overwhelmed

praise for the three skills of top trading professor pruden's new book the three skills of top trading is unquestionably the best book on a specific trading method and the necessary attributes for trading that i have read his logic understanding of human foibles and use of the wyckoff method of trading are broadly referenced readable understandable and entertaining charles d kirkpatrick ii cmt coauthor of technical analysis the complete resource for financial market technicians editor of the journal of technical analysis and board member of the market technicians association at long last someone has taken the time and effort to bring

the work and insight of wyckoff to wider public attention and hank pruden has done so masterfully with great clarity and eloquence hank has taken the best of wyckoff s work combining it with the essential aspects of trader discipline and psychology to provide a highly readable and particularly useful guide to trading must reading jacob bernstein trade futures com hank pruden puts all of the elements needed for successful trading into one volume this book not only belongs on every trader s shelf but should be close enough for continuous reference martin j pring president pring com dr pruden has brought together his lifetime of work in developing a modern approach to analyzing and trading the markets built upon classic market analysis from the early part of the twentieth century and topped off with modern day tenets of behavioral finance and mental state management thom hartle director of marketing for cqg inc cqg com i usually consider a book to be well worth reading if it gives me one paradigm shift i believe that this book will give the average investor a lot more than just one van k tharp phd president van tharp institute
