in this day when christians and churches are widely dispersed throughout the world the ques tion who is the church could easily be dismissed as irrelevant in this publication bishop david zac niringiye pleads that as jesus warned we should not be in haste to conclude that any community with religious titles or forms and who speaks the right language of lord lord is authentic church taking his cue from hebrews 11 and 12 the author addresses the motif of the people of god looking first at the ancient people of israel beginning with moises then the new israel and the covenant in christ born through the holy spirit at pentecost and finally the life of the new community the church during the apostolic era through this biblical journey it is made clear that as the pilgrim people of god and the new community in christ we must be marked by faith love and hope looking forward to the full consummation of the kingdom of god justice peace and joy fully realized when the new heaven and the new earth where righteousness dwells 2 peter 3 13 is inaugurated

what is church s true foundation was the christian church founded by jesus or does the eucharist make the church paul avis sets out his own answer to these questions gathering a wide range of critical scholarship he argues that there is something solid and dependable at the foundation of the church s life and mission avis argues that jesus wanted a church in a sense but not as we know it christ proclaimed the gospel of the kingdom and his disciples proclaimed the gospel whose content was jesus himself the kingdom in person the church is battered and divided but at its core is a treasure that is indestructible the gospel of christ embodied in

word and sacrament a central theme of the book is the relationship between the church and christ the church and the gospel the church and the kingdom jesus christ crucified and risen is the sole foundation of the church but he cannot be without his people

what is the church in a day when people increasingly view the church as a relic of the past this may be the most important question christians can ask themselves the logical starting point is scripture in this thorough and engaging study of the church in the new testament kevin giles concludes that the church is first and foremost a christian community no other category offers greater breadth and depth of insight into its nature no other category offers such a challenge to western individualism nor such promise for the revitalization of the church in the postmodern world what on earth is the church is an exploration in new testament theology a careful study of the ecclesial community from jesus to paul and on through to revelation each category of new testament writings is carefully assessed with attention given to the early middle and late pauline letters and to the theology of each gospel giles finds in the new testament a community in transition never perfect always provisional and forever living in the tension between its present imperfection and its eschatological ideal the new testament does not promise an original community to be recaptured but a variety of perspectives on being the community of god in changing social environments

as the protestant reformers did so twenty first century christians also recognize the need to distinguish between the true and false church thus they find themselves looking closely at the modern church to determine whether it is a true and faithful church today s christians know that proper criteria are necessary to discern the true church the most common criteria wrote john calvin are that the word of god is rightly preached and heard and that the sacraments are administered according to christ s institution moreover martin luther said that suffering is a telltale sign of god s people while anabaptist and reformed christians included discipline among the distinguishing marks of the church these standards take on particular poignancy today the global church continues to live under severe persecution and the american church characterized by a lack of discipline has been wounded by its own sins of chasing sex and power in this collection of essays first given at annual meetings of the evangelical theological society the authors take time to reflect on the reformational marks of the church in order to help reform christ s bride with contributions from edward w klink iii duane litfin j stephen yuille j v fesco keith d stanglin greg cochrane jeremy m kimble guy waters justin l mclendon

an upper level introduction to the christian doctrine of the church this book is a rigorous comprehensive introduction to the doctrine of the church by taking the tack of walking readers through the internal logic of ecclesiology rather than simply offering a compendium of perspectives on each issue that arises the authors seek to teach and model thinking theologically with the grain of scripture and ecclesial reflection about the church the chapters are peppered with two to three excurses per chapter which consider a particularly pertinent issue that arises from the doctrine s development e g the move from jesus to the church schism and the rise of denominations sacramental mediation or contemporary concerns e g the question of other religions contemporary ecumenical questions the emerging church while the overall tone and content of the book articulate and invite discussion on the problematics of ecclesiology these excurses will provide ample opportunity to examine and where appropriate untangle ecclesiological knots continuum s guides for the perplexed are clear concise and accessible introductions to thinkers writers and subjects that students and readers can find especially challenging or indeed downright bewildering concentrating specifically on what it is that makes the subject difficult to grasp these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material

for most people as professor kung notes the question is not whether this or that proposition is infallibly true but whether a persistence in truth can be ascribed to the church at all yet this is not a polemical book or simply another critical inquiry its aim is thoroughly pastoral to create a new awareness a new conviction of the power of christian truth by which the church has always lived and will continue to live in the future t p

the church is one of the most intriguing and significant institutions on earth because its essence and character are so widely misunderstood this is a timely book the church is not a mere human institution though it is made up of human beings in community its roles and responsibilities are momentous but all the elements of its organization came about as the church developed and attempted to fulfill its divine mandate not as forms given at its founding these papers from a bingham colloquium at mcmaster divinity college treat the church then in studies of the church in the various parts of the new testament canon followed by a historical study of the church under attack in places where it did not survive the latter part of the book contains essays by several church practitioners from now who discuss their insights about and experiences with postmodern society home churches megachurches and the missional church such a combination of biblical theology history and practice makes this a valuable book for scholars and practitioners in fact for all thinking members of the church founded by jesus christ

introduction to the mystery of the church is an ecclesiological survey presenting a doctrinal synthesis of the church the author s intention is to propose an overview of this mystery in connection with the entirety of the christian mystery the book is divided into two major parts the first presenting the foundations in the bible and the tradition up to our day and the second being an explanatory proposal introducing the reader to the church s definition and personality and concluding with an exposition of the four properties enunciated in the creed one holy catholic and apostolic the value of this way of proceeding is first and foremost in the proposal of a

synthesis that allows one to situate each question in its rightful place such study being oriented toward a better overall grasp of the subject as the title suggests the book is an introduction that should allow the reader to apprehend the mystery in its internal coherence in order subsequently with the aid of other texts to be able to enter more deeply into the study of one or other specific point while this ecclesiology treatise is written from a catholic point of view an ecumenical perspective is often present either through the presentation of divergent views from other christian confessions or through the proposal for a theological convergence

how does the church perceive herself fr louis bouyers the church of god sets out to answer that question in light of tradition and theological reflection through the centuries but especially by drawing on the teaching of the second vatican council this book is a highly readable thorough synthesis of ecclesiology after the council presented by one of the greatest theologians of the 20th century the author himself a former lutheran minister also explores reformation views of the church as well as the catholic churchs deepened understanding of her distinctive identity and her imperfect but real communion with the orthodox churches and protestant ecclesial communities the church of god is a major contribution to the ecclesiology of communion fostered by the second vatican council and continued by pope paul vi but especially by john paul ii and benedict xvi indeed the book reflects the hermeneutic of reform pope benedict xvi insists should guide the interpretation of vatican ii

during the first decade of the 21st century the catholic church in the developed world has faced a decline in its moral authority increasing accusations of irrelevance to a secular age and a steep and steady decline in commitment among successive generations from the 1960s on despite this catholic schools have multiplied and grown in popularity and educational achievement the book sets out a programme for the contribution of catholic schools to the future of the church covering such topics as the religious education curriculum in its cognitive and affective aspects the sacramental life of the school selection of staff the issue of staff and catholic witness and many other topics engebretson argues that catholic schools are a powerful key to the future of the church and shows how within their diversity catholic schools can be ecclesial communities which have at their heart the building up of the church
