john kenneth galbraith has long been at the center of american economics in key positions of responsibility during the new deal world war ii and since guiding policy and debate his trenchant new book distills this lifetime of experience in the public and private sectors it is a scathing critique of matters as they stand today sounding the alarm about the increasing gap between reality and conventional wisdom a phrase he coined galbraith tells along with much else how we have reached a point where the private sector has unprecedented control over the public sector we have given ourselves over to self serving belief and contrived nonsense or more simply fraud this has come at the expense of the economy effective government and the business world particularly noted is the central power of the corporation and the shift in authority from shareholders and board members to management in an intense exercise of fraud the pretense of shareholder power is still maintained even with the immediate participants in fact because of the scale and complexity of the modern corporation decisive power must go to management from management and its own inevitable self interest power extends deeply into government the so called public sector this is particularly and dangerously the case in such matters as military policy the environment and needless to say taxation nevertheless there remains the firm reference to the public sector how can fraud be innocent in his inimitable style galbraith offers the answer his taut wry and severe comment is essential reading for everyone who cares about america s future this book is especially relevant in an election year but it deeply concerns the much longer future

this article examines the evidence on the effect of stronger ip laws introduced during the process of international ip law harmonization initiated by the trips agreement on the economic development of developing countries it has been argued by proponents of harmonization that stronger ip laws will provide a needed boost to the economic development of developing and even least developed countries critics of harmonization have argued that stronger ip laws will have the opposite effect what has been largely overlooked in this debate is the strength of the evidentiary foundation upon which the arguments of both sides depend many of the economic arguments of both sides borrow background assumptions from the neoclassical school of economics a paradigm that has lately come under intense criticism and scrutiny from both current students of economics and greatly respected economists after briefly discussing the crisis of neoclassical economics and providing a demonstration of the deficiencies in the application of neoclassical modeling techniques to the ip amp development question i examine some of the latest empirical evidence on the question and then examine the history of the relationship between ip amp development the conclusion of this examination is that empirical evidence does not clearly support either side rather a great deal more analysis is required especially analysis of what one author calls quot natural experimentsquot these natural experiments are to be found in history and the historical relationship of ip amp development clearly demonstrates if anything an inverse relationship between strong ip laws and successful economic development in light of this result john kenneth galbraith s phrase quot conventional wisdomquot is an apt description of the position well represented in the community of american ip legal scholars that the international harmonization of ip laws will help the economies of developing nations to grow

challenging such established ideas as the inevitability of the business cycle and the taboo on deficit spending the group of economists associated with the kennedy council of economic advisers attempted in the 1960s to convert their theories into government policy the successes failures elations and frustrations of what came to be called the new economics is the subject of james tobin s fascinating account based on the janeway lectures given at princeton in 1972 in making his assessment of the new economics professor tobin draws on his close involvement in policymaking during the kennedy years originally published in 1974 the princeton legacy library uses the latest print on demand technology to

again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905
