from arranged marriages to online dating this four volume work presents everything from personal accounts to empirical evidence to document what creates love in our culture as well as around the world the field of biology views love as a hard wired mammalian drive akin to thirst and hunger in contrast psychology views love from a social and cultural perspective where our drive to find love and our responses to it are highly dependent on societal norms in the psychology of love esteemed author and educator michele a paludi examines love through all lenses thereby providing readers a deeper understanding of the ways we can express caring sensitivity empathy and respect toward one another each chapter in this comprehensive four volume work includes a scholarly overview of empirical research and theories about the psychology of love in addition individuals own definitions of love are included special attention is paid to accepted standards of love across a variety of cultures the ways individuals express liking and love across the lifecycle and patterns in dissolutions of friendships and romantic relationships making note of gender and race differences

using a cognitive approach to literature this book uncovers representations of self consciousness in selected modern british novels exposing it as complicating character development miller provides new readings of works by conrad joyce and d h lawrence to demonstrate the emergence of a self who feels split from the world

the complex novels by virginia woolf are seen with clarity and coherence in the elusive self a thorough and detailed literary interpretation by louise a poresky the result is a reliable map that guides the reader through the nine

novels adding the wisdom of religion and psychology to her literary criticism dr poresky demonstrates how woolf s characters strive to achieve personal wholeness the quest progresses sequentially through the novels as a major character in each work struggles against certain demons whether the superficial dictates of society or the voices that say women cannot be artists and thus realizes the difference between ego and essence

the wiley blackwell handbook of transpersonal psychology the new handbook of transpersonal psychology is a necessity today many transpersonal psychologists and psychotherapists have been waiting for such a comprehensive work congratulations to harris friedman and glenn hartelius may this book contribute to an increasingly adventurous creative and vibrant universe ingo b jahrsetz president the european transpersonal association the handbook of transpersonal psychology is an outstanding comprehensive overview of the field it is a valuable resource for professional transpersonal practitioners and an excellent introduction for those who are new to this wide ranging discipline frances vaughan phd psychologist author of shadows of the sacred seeing through spiritual illusions finally the vast literature on transpersonal psychology has been collected in what is clearly the essential handbook for psychologists and others who have either too apologetically endorsed or too critically rejected what undoubtedly will define psychology in the future if you are not a transpersonal psychologist now you will be after exploring this handbook no longer can one dismiss the range of topics confronted by transpersonal psychologists nor demand methodological restraints that refuse to confront the realities transpersonal psychologists explore this is a marvelous handbook critical expansive and like much of what transpersonal psychologists study sublime ralph w hood jr university of tennessee chattanooga with contributions from more than fifty scholars this is the most inclusive resource yet published on transpersonal psychology which advocates a rounded approach to human well being integrating ancient beliefs and modern knowledge proponents view the field as encompassing

jungian principles psychotherapeutic techniques such as holotropic breathwork and the meditative practices found in hinduism and buddhism alongside the core commentary on transpersonal theories including holotropic states science with chapters on neurobiology and psychometrics and relevance to feminism or concepts of social justice the volume includes sections describing transpersonal experiences accounts of differing approaches to healing wellness and personal development and material addressing the emerging field of transpersonal studies chapters on shamanism and psychedelic therapies evoke the multifarious interests of the transpersonal psychology community the result is a richly flavored distillation of the underlying principles and active ingredients in the field

this volume is addressed to scholars as well as a popular audience aimed to bridge the gap between academia and the general public it deals with who we are concerning our sense of self and identity and how we live concerning our ways of life in diverse cultures it affirms that we may transcend our cultural ethnic roots and redefine our identities individual or collective transcendence opens the door not only to personal transformation but also to confront ethnic stereotypes and prejudices readers will gain fresh cultural knowledge from both the east and the west and be attuned to the theme of letting no ethnic group be alien to us this book is at once about the immersion of life in culture and the remaking of culture by human action reciprocal influence at work the idea of immersion underscores the powerful cultural forces that shape our perceptions thinking and emotions unlike other cultural psychology texts this volume dwells on the accelerating alterations of culture by human action and hence the remaking of our own being in the age of the internet in the author s own words i write with the passion of a person who has lived life from being marginal neither eastern nor western to being a world citizen turned to english like a duck to the water thus circumventing my handicap of chinese orthographic dyslexia i have two cultural parents one chinese and one western who transformed me into a thoroughly bilingual

bicultural person empowered to build intercultural bridges the east is rising and the west can ill afford to remain ignorant of the east

in this the first of a six volume contribution to systematic theology grenz creatively extends the insights of contemporary trinitarian thought to theological anthropology the social god and the relational self is an example of theological construction as an ongoing conversation involving biblical texts the theological heritage of the christian tradition and the contemporary historical social context

religion is not only about understanding the world it is just as much about how to develop and shape the self s experience of itself because the religious self is shaped by our symbols of god and symbols of god are also shaped by the self theology and philosophy of religion cannot ignore this interplay or the psychological dimension when they discuss what symbols of god are adequate and not by discussing critically different ways the symbol of god functions in the formation of the self the book develops a nuanced and original approach to the interplay between god and the self it suggests that play is actually an important metaphor in order to develop a dynamic understanding of religion s way of relating god and the self this approach challenges understandings of religion focussing only its cognitive claims as well as those who emphasize doctrinal orthodoxy as the most important element in religion

first published in 1994 routledge is an imprint of taylor francis an informa company

almost 20 000 entries of worldwide literature related to psychology and psychiatry as these disciplines are dealt with in literary publications most of the contents of the first edition are included in the second divided into sections of such forms as drama poetry folklore and myths each numbered entry includes bibliographical information author title and subject indexes

an excellent introductory historical survey an important resource to both literary scholars and followers of jungian psychology arba a great help succeeds quite well in achieving his stated purpose psychological perspectives

the third volume in the distinguished progress in self psychology series brings together the most exciting issues in a rapidly expanding field frontiers in self psychology is highlighted by sections dealing with self psychology and infancy and self psychology and the psychoses clinical contributions include several case studies along with a reconsideration of dream interpretation theoretical contributions span issues of gender identity boundary formation and the biological foundation of self psychology
