the emperor's tomb is a magically evocative haunting elegy to the vanished world of the austro-hungarian empire and to the passing of time and the loss of youth and friends prophetic and regretful intuitive and exact roth's acclaimed novel is the tale of one man's struggle to come to terms with the uncongenial society of post-first world war vienna and the first intimations of nazi barbarities

rosenfeld suggests that more than any other component of roth s varied fiction his skillful portrayals of uprootedness and the search for home explain his international appeal which has grown in recent decades with the translation of his novels into english book jacket

the legendary austro hungarian novelist and essayist joseph roth was born in ukraine in 1894 and died tragically in paris in 1939 these letters span the breadth of roth s life from the schoolboy to the veteran of 44 marked by war poverty alcoholism the loss of his wife through madness and two decades of prolific work it is a deeply moving portrait of the life of the writer as an outsider in exile from a world he no longer recognized as his own

jonsson analyzes how musil explains the foundation of modern theories of subjectivity

war has been the defining theme of the 20th century it has dominated our imagination it has influenced our political language it has shaped and determined our view of history this study sets out to look at the modern consciousness and war in terms of a number of themes our view of the 20th century our understanding of modernity our attitude to the meaning or meaninglessness of history our trust or distrust of science our psychological presuppositions towards the end of the book the author also looks at the often tragic nature of the encounter between the western and non western worlds throughout the study the discussion is anchored to several seminal themes or works drawn from a wide spectrum of american and european authors in the fields of literature and philosophy western culture has been deeply influenced both consciously and unconsciously by its experience of conflict in particular the two world wars and the cold war that followed them this study illustrates why in the course of the 20th century war became the accredited theme of modern life

in this deeply resonant book gordimer examines the tension for a writer between life s experiences and narrative creations she asks first where do characters come from to what extent are they drawn from real life we are touching on this question whenever we insist on the facts behind the fiction gordimer suggests and here she tries to unravel the mysterious process that breathes real life into fiction
