gratz takes us on tours of places that are doing better and actually getting somewhere because against all odds

they have abandoned conventional wisdom's unworkable and oversimplified formulas and re-embraced new opportunities as complex and rewarding as life itself. It's roll up our sleeves time in America folks and now we have no more excuses. Roberta Gratz has assembled the examples worth learning from and her book is an excellent teacher. Tony Hiss, author of *The Experience of Place*, Roberta Gratz is wonderful at discovering important things that are going on that most of us have not heard of yet. Jane Jacobs, author of *Death and Life of Great American Cities*. I read the newspaper differently every day since I read this book. Anthony Mancini, author, professor of journalism at Brooklyn College and former reporter for the New York Post, after decades of decline and decay, scores of downtowns in urban America are coming to life once again. Others continue to languish despite massive public investment in cities. Back from the edge, acclaimed author Roberta Brandes Gratz teams up with main street expert Norman Mintz to tell us why. Based on their firsthand observations of downtown change throughout the country, this book is filled with stories of urban recovery from Mansfield, Ohio to Los Angeles, from Pasco, Washington to SoHo, rejecting simplistic cookie-cutter prescriptions for success. Gratz and Mintz instead identify a more flexible and effective approach to downtown rejuvenation. Urban husbandry: they illustrate how this organic, sustainable process is already producing real-world results. What's more, they show the tremendous advantages of low-cost, modest initiatives over the blockbuster resuscitation efforts of traditional large-scale project planning: the budget-busting convention centers, aquariums, stadiums, and other stand-alone solutions that do little to improve the city around them. Throughout this book, the authors address the key issues facing the nation's cities and towns today, including transportation planning and sprawl containment, the threat of big-box superstore retailers, and the preservation of the essential downtown components necessary to anchor a thriving, vibrant community. Gratz and Mintz show us that rebuilding authentic places, reconnecting communities, and stimulating innovative change are within everyone's reach. *Cities Back from the Edge* turns the spotlight on the resurgence of downtown America in a new and insightful way, with proven ideas on how to correct the mistakes of the past several decades. This book offers new hope that our cities will not merely be rebuilt but reborn.

The first battles began in the wilderness. The animals in the forests and glades struggled furiously for life and often fought with splendid courage, but they never won. They were always killed, and now it was man's turn. Now the strange, wispy vapors, the strange, blood-sucking vapors had tired of animals and looked hungrily toward people. pg 4 of cover
