the lure of the late eliade mircea eliade was the 20th century s foremost historian of religions this is the first book devoted to the last years of eliade s life when he was writing a history of religious ideas a work he considered his magnum opus it draws on his personal journals to describe the context in which the history was written the reader is invited both to explore his understanding of religion and to experience his effort to construct a truly universal history of religions it also responds to eliade s history by raising critical questions regarding its scientific status his relationship to goethe and allegations of involvement in fascism in the 1930s it suggest how eliade s project can be enhanced through the recent work of robert cummings neville the study includes substantial bibliographical notes that will further the study of both eliade and neville 69 95 136pp 1993

the influential scholar of religion mircea eliade envisioned a spiritually destitute modern culture coming into renewed meaning through the recovery of archetypal myths and symbols eliade defined this restoration of meaning as a new humanism of existential meaning and cultural religious unity through a biographical exegesis of eliade s life and writings from his earliest years in romania to his final ones as professor of the history of religions at the university of chicago cave sets forward a structural description of what this new humanism might have meant for eliade and what it signifies for modern culture cave concludes by endorsing eliade s radically pluralistic vision which he argues offers a key to the revitalization of our demythologized and material culture this study repositions previous eliadean studies and places the new humanism as the paradigm in relation to which future readings of eliade should be evaluated
