this work is a posthumous collection of the descriptive papers of c h bollman on north
american myriapoda centipedes and millipedes edited by prof l m underwood who added
some notes and prepared an introductory review of the literature on north america
myripods a number of individuals helped to collect bollman s papers and prepare the
work for publication by the national museum

in its first seven years the north american free trade agreement nafta tripled trade and
quintupled foreign investment among the u s mexico and canada increasing its share of
the world economy in 2001 however north america peaked since then trade has slowed
among the three manufacturing has shrunk and illegal migration and drug related
violence have soared at the same time europe caught up and china leaped ahead in the
north american idea eminent scholar and policymaker robert a pastor explains that nafta
s mandate was too limited to address the new north american agenda instead of offering
bold initiatives like a customs union to expand trade leaders of the three nations thought
small interest groups stalemated the small ideas while inhibiting the bolder proposals and
the governments accomplished almost nothing to overcome this resistance and
reinvigorate the continent the leaders need to start with an idea based on a principle of
interdependence pastor shows how this idea once woven into the national consciousness
of the three countries could mobilize public support for continental solutions to problems
like infrastructure and immigration that have confounded each nation working on its own
providing essential historical context and challenging readers to view the continent in a
new way the north american idea combines an expansive vision with a detailed blueprint

for a more integrated dynamic and equitable north america
