this book presents the first comprehensive introduction to methods and methodologies in the humanities and social sciences in general and islamic studies in particular from a critical rationalist point of view the book aims to be a self sufficient theoretical and practical guide to the topics that it introduces it contains a large selection of fully worked out review activities and review questions plus topics for further discussion which are devised to assist readers to better understand the issues which are discussed in the book last but not least all efforts have been made to make sure that most if not all of the reading materials which are recommended in the book are not only of the highest quality but also freely available on the internet

originally published in 1983 this book is about the way we see things or think we do which is by no means the same and about the ways in which we have tried to reproduce that visual concept in diagrams pictures photographs films and television whatever the medium if any degree of

realism is intended some use of perspective is inevitable and some understanding of it can aid the appreciation of the result but here the technicalities of perspective geometry are treated as far as possible non technically by a common sense approach students would be artists or architects are warned in the preface that they will travel second class in the author s train of thought the general reader coming first but they may well find the journey worthwhile in that it provides a background to a subsequent more detailed studies lawrence wright shows that every form of perspective representation has some innate falsity but that most such forms offer an adequate makeshift that rules of geometry often need to be bent that labour saving dodges and shortcuts exist as he says perspective drawing like politics is an art of the possible in reading this book beginners may find it all simpler than they had supposed though the established expert may in some interesting respects find just the opposite the general reader may thereafter find himself seeing things and representations of them in a new light

amidst all the chatter about china lies this rock of a book a magnificent memoir history from the very core of modern chinese society and history it s a wonderful thing where the essential book and the delightful book are as in this case the one thing let no one speak of china who has not read the phoenix years tom keneally author of australians the phoenix years tells the riveting story of china s rise from economic ruin to global giant in the four decades since the country started opening to the world in 1978 this remarkable narrative is informed and illuminated by another one running beneath its surface the story of the country s emerging artistic avant garde and the chinese people s ongoing struggle for freedom of expression by following the personal stories of nine contemporary chinese artists the phoenix years shows how china s rise unleashed creativity thwarted hopes and sparked tensions between the individual and the state that continue to this day it relates the amazing years of self discovery and hope in the 1980s

which ended in the disaster of the tiananmen square massacre following that tragedy comes the story of china s meteoric economic rise of the opportunities that emerged and the difficult compromises artists and others have to make to be citizens in modern china journalist and foreign correspondent madeleine o dea has been an eyewitness for over 30 years to the rise of china the explosion of its contemporary art and cultural scene and its citizens long struggle for free expression over that time she has known many of the key players some of whom are now international art stars their stories tell the history of their country at once a fascinating and accessible account of the birth of modern china and a moving chronicle of decades of courageous political resistance and cultural activism the phoenix years is vital reading for anyone interested in china today

in the three years since publication of the first edition venous interventions have increased to the point that they now constitute up to 75 of a typical day s procedures in most vascular and interventional radiology practices these procedures are extremely important to the interventionalist vascular surgeon internist payer and of course to the patient who depends on them being performed with skill and care in this book you have at your fingertips the most comprehensive thorough and systematic approach to venous interventional radiology available today the second edition has been fully updated and expanded by 14 chapters and includes many more clinical correlations you will find full coverage of underlying concepts techniques and procedures including hot venous topics such as peripheral venous thrombolysis for deep vein thrombosis treatment of failing and failed hemodialysis access placement and management of ports diagnosis and intervention for thromboembolic disease and the use of temporary inferior vena cava filters the all important clinical perspective covering not only the disease process but also the patient workup outcome analysis indications contraindications risks and cost effectiveness of each procedure an important chapter on surgical options added to the chapter on chronic

venous insufficiency hundreds of clear illustrations and photographs that highlight every topic for both the interventionalist who will find the book a blueprint to the field and the clinician who will refer to it as an outstanding source of patient management guidance on new interventional procedures this book is essential
