thinking otherwise is a unique and revealing look at the philosophical dimensions of information and communication technology ict among thinkers the importance of what transpires within the virtual world is the effect these activities have on real human beings who exist outside of and beyond the computer generated virtual environment obviously the result of ict interactions can lead to good or bad outcomes gunkel however is not concerned about deciding which argument is more compelling but how these arguments are organised articulated and configured this approach entails challenging criticizing and even changing the terms and conditions of the discourse itself for example the binary nature of computer logic tends to colour debate about subsequent issues by portraying each side as the antithesis of the other that is the switch is turned on or off thinking otherwise investigates the unique quandaries complications and possibilities introduced by a form of otherness that veils through technology the identity of the other therefore gunkel formulates alternative ways of proceeding to take into account additional forms of otherness gunkel submits traditional forms of philosophical reasoning to a critical reevaluation caused by opportunities made available with information technology and also develops alternative ways of thinking that are oriented otherwise

pulitzer prize nominee and english professor garrett explores the deeper side of comic books and the motion pictures they inspire for the lessons they can teach readers about faith justice and redemption

does matter matter the scientific picture of the end of the physical universe has undergone dramatic changes since the turn of the 21st century with its future characterized by accelerated expansion and futility yet christian theology has been largely silent on this despite the interest in eschatology in popular culture and in theology itself what can christian theology learn from and contribute to the scientific picture of the future of the universe can the biblical narratives of creation and new creation have a fruitful dialogue with scientific discoveries david wilkinson shows what a fruitful dialogue this can be critiquing the folk eschatology of the left behind series the misguided faith of the scientific optimists and the lack of scientific engagement of the theologians of hope wilkinson argues for a rediscovery of the theological theme of new creation and the centrality of bodily resurrection
