in the half century before walter scott s waverley dozens of popular novelists produced historical fictions for circulating libraries this book examines eighty five popular historical novels published between 1762 and 1813 looking at how the conventions of the genre developed through a process of imitation and experimentation

praise for the previous edition a complete overview of the subject which does not intimidate the reader but rather spurs interest and understanding in the subject european energy and environmental law review the book is scholarly yet accessible and very readable thoroughly recommended law institute journal description the law of the sea provides for the regulation management and governance of the ocean spaces that cover over two thirds of the earth s surface this book provides a comprehensive assessment of the foundational principles of the law of the sea a critical overview of the 1982 united nations convention on the law of the sea and an analysis of subsequent developments including many bilateral regional and global agreements that supplement the convention the third edition of this acclaimed text has been thoroughly revised and updated and now incorporates a dedicated chapter on natural and artificial islands all of the main areas of the law of the sea are addressed including the foundations and sources of the law the nature and extent of the maritime zones the delimitation of overlapping maritime boundaries the place of archipelagic and other special states in the law of the sea navigational rights and freedoms military activities at sea marine scientific research and marine resource and conservation issues such as

fisheries marine environmental protection and dispute settlement the book also takes stock of contemporary oceans governance issues not adequately addressed by the convention overarching challenges facing the law of the sea are considered including how new maritime security initiatives can be reconciled with traditional navigational rights and freedoms the need for stronger legal and policy responses to protect the global ocean environment from climate change and ocean acidification and work on a new agreement for the conservation and sustainable use of marine biological diversity in areas beyond national jurisdiction

this book deals with theoretical problems that arise at points of contact between the concerns of philosophers and historians about the practice of historiography in bringing together these critical studies on diverse but related themes the book offers insight into the aims and methods of those working in theory of historiography in recent years especially in english speaking countries
