this introduction to the ancient near east includes coverage of egypt and a balance of political social and cultural coverage organized by the periods kingdoms and empires generally used in near eastern political history the text interlaces social and cultural history with the political narrative this combination allows students to get a

rounded introduction to the subject of ancient near eastern history an emphasis on problems and areas of uncertainty helps students understand how evidence is used to create interpretations and allows them to realize that several different interpretations of the same evidence are possible this introduction to the ancient near east includes coverage of egypt and a balance of political social and cultural coverage

a cultural history of plants in antiquity covers the period from 10 000 bce to 500 ce this period witnessed the transition from hunter gatherer subsistence to the practice of agriculture in mesopotamia and elsewhere and culminated in the fall of the roman empire the end of the han dynasty in china the rise of byzantium and the first flowering of mayan civilization human uses for and understanding of plants drove cultural evolution and were inextricably bound to all aspects of cultural practice the growth of botanical knowledge was fundamental to the development of agriculture technology medicine and science as well as to the birth of cities the rise of religions and mythologies and the creation of works of literature and art the 6 volume set of the cultural history of plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today the themes covered in each volume are plants as staple foods plants as luxury foods trade and exploration plant technology and science plants and medicine plants in culture plants as natural ornaments the representation of plants annette giesecke is professor of classics at the university of delaware usa volume 1 in the cultural history of plants set general editors annette giesecke university of delaware usa and david mabberley university of oxford uk

this sweeping and authoritative history of primitive man s first efforts to go to sea is at once a great detective story and a reconstruction of the past through illustrations johnstone s work supersedes all previous interpretations of the extent of water transport among early societies long established ideas of how and when early populations expanded and relocated have been rendered obsolete the dynamic advances in archacology combined with sensitive renderings of the artifacts of preliterate peoples have yielded remarkable results the nautical information johnstone has marshaled is admirable he describes the carly types of water transport raft and reed skin dugouts and the first plank built boats he surveys the simultaneous developments of seafaring technology and the uses of maritime transport in commerce and war throughout prehistoric europe the orient the pacific and developments of seafaring technology and the uses of maritime transport in commerce and war throughout prehistoric europe the orient the pacific and the americas combining exhaustive research with brilliant theoretical imagination johnstone offers some unprecedented solutions to such problems as the early dates for the presence of man in australia and the west indies and the inconsistency of geological evidence with several convenient land bridge speculations johnstone supplements his archaeological evidence with a close analysis of iconographic materials and a judicioususe of ethnographic parallels with contemporary primitive societies folklore and legends provide clues to early man s maritime exploits as do linguistics and etymology even the occurrences of chickens and sweet potatoes in unexpected places are duly noted and ex plained not only definitive the seacraft of prehistory is also highly readable profusely illustrated and consistently original and provocative it is truly an outstanding achievement the late paul johnstone worked for bbc overseas and bbc television where he was head of the history and archaeology unit

official organ of the book trade of the united kingdom

written by eminent scholars in the field this edited volume is the first to treat in a comprehensive manner the archaeology of metallurgy's origins focusing specifically on initial uses of copper and bronze as well as the coming of iron across Asia from the eastern Mediterranean to the far east it is a volume that should serve for some time to come as the source of the fundamental information upon which larger interpretations of metallurgical developments in Asia will be grounded Masca Research Papers Vol 16 University Museum Monograph 89
