a public policy revolution a new direction for a new america asserts that america s economic life is ruled by a supply side drip down system that overwhelmingly favors capital over labor and leads to a massive income inequality preventing the country from reaching its economic potential author john shtino believes that this existing supply side system is a ticking time bomb that is supported by all major parties and an american elite that is incapable of implementing the changes needed to make america greater than ever including truly reforming health care ending welfare as we know it simplifying the tax code legalizing victimless crimes creating a new education paradigm bringing the debt to fifteen percent of gdp and much more thus a public policy revolution is dedicated to the destruction of the supply side system offering as a replacement a new demand push paradigm which would treat capital and labor fairly and guide us toward a more prosperous and equitable america since the author further believes that neither party as presently constituted can bring about this much needed change he aims to dramatically change the democratic party or if unsuccessful in this attempt to establish a meaningful third party his work not only examines the economic and political problems facing the united states but also offers means to solve them

the economics of a disaster represents a major contribution to the understanding of the economics of liability and damages it is based on the assumption that if people know they can be held responsible for some or all of the costs or damages sustained in an environmental accident they will change their behavior to make the accident less likely to occur or to reduce the damages should it occur the work develops a framework to examine and measure changes in market conditions after a disaster showing the kinds of information that need to be collected and analyzed based on the exxon valdez case this work provides an interesting framework for practitioners specialists and scholars in the fields of business economics law and environmental studies

describes recent market dynamics and trends in industries supplying it goods and services and offers an overview of the globalisation of the information and communication technology ict sector and the rise of ict enabled international sourcing
