nobody reads mill today wrote a reviewer in time magazine a few years ago one could scarcely praise mr melvin maddocks who penned that remark for his awareness of the present state of mill studies for of all nineteenth century philosophers who wrote in english it is 1 s mill who remains the most read today yet it would not be so far from the truth to say that very few people pay much serious attention nowadays to mill s writings about logic and metaphysics as distinct from those on ethical and social issues despite the fact that mill put enormous effort into their composition and through them exerted a considerable influence on the course of european philosophy for the rest of his century but the only sections of a system of logic 1843 and an examination of sir william hamilton s philosophy 1865 to which much reference is now made comprise only a small proportion of those very large books and the prevailing assumption is that mill s theories about logical and meta physical questions are with few exceptions of

merely antiquarian interest bertrand russell once said that mill's misfortune was to be born at the wrong time russell 1951 p 2 it can certainly appear that mill chose an inauspicious time to attempt a major work on logic
