a fascinating chapter in american social and cultural history like our very own offers compelling evidence of the role that adoption has played in our evolving efforts to define the meaning and nature of both motherhood and family book jacket

education is intimately connected to many of the most important and contentious questions confronting american society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance elementary and secondary schooling has long been the province of state and local governments but when george w bush signed into law the no child left behind act in 2002 it signaled an unprecedented expansion of the federal role in public education this book provides the first balanced in depth analysis of how no child left behind nclb became law patrick mcguinn a political scientist with hands on experience in secondary education explains how this happened despite the country s long history of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform oriented federal role in schools his book provides the essential political context for understanding nclb the controversies surrounding its implementation and forthcoming debates over its reauthorization how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare he places the evolution of the federal role in schools within the context of broader institutional ideological and political changes that have swept the nation since the 1965 elementary and secondary education act chronicles the concerns raised by the 1983 report a nation at risk and shows

how education became a major campaign issue for both parties in the 1990s mcguinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict mcguinn traces the republican shift from seeking to eliminate the u s department of education to embracing federal leadership in school reform then details the negotiations over nclb the forces that shaped its final provisions and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform

a paper reprint of the 1988 original it is a political history that describes and analyzes the management of organized knowledge wheatley takes flexner and the carnegie foundation of 1910 as the model portz political science northeastern u combines a synthesis of the literature on urban politics and political economy with a close analysis of plant closings in pittsburgh pennsylvania louisville kentucky and waterloo iowa to illuminate the complexity of constraints upon and range of local government efforts to control the economic damage caused by shutdowns paper edition unseen 12 95 annotation copyrighted by book news inc portland or

the first book length biography of the luftwaffe s top field commander wolfram von richthofen a master of the tactical and operational air war one of the key catalysts in the resurrection of the german air force and an ardent and unwavering follower of the fuhrer

she draws on extensive interviews city council proceedings and historic plats and photographs to construct a detailed picture of

how these districts originally looked and were used how they were renovated and to what ends they were marketed

a sharp analysis of the similarities differences and impact of the presidencies of franklin roosevelt and ronald reagan two iconic figures representing polar opposites of twentieth century american politics

the past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of american law and the institutions of the liberal state in this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory the authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of american law should take writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory a third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views the resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice a common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting radical critiques of the law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are proposing alternative critiques that embody considerably greater

promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

no mission too difficult no sacrifice too great duty first for almost a century from the western front of world war i to the deserts of iraq this motto has spurred the soldiers who wear the shoulder patch bearing the big red one in this first comprehensive history of america s 1st infantry division james scott wheeler chronicles its major combat engagements and peacetime duties during its legendary service to the nation the oldest continuously serving division in the u s army the fighting first has consistently played a crucial role in america s foreign wars it was the first american division to see combat and achieve victory in world war i and set the standard for discipline training endurance and tactical innovation one of the few intact divisions between the wars it was the first army unit to train for amphibious warfare during world war ii the first division spearheaded the invasions of north africa and sicily before leading the normandy invasion at omaha beach and fighting on through the hurtgen forest the battle of the bulge the ruhr pocket and deep into germany by war s end it had developed successful combined arms regimental combat teams and made advances in night operations wheeler describes the first division s critical role in postwar germany and as the only combat division in europe during the early cold war after returning to the united states at fort riley kansas the division fought valiantly in vietnam for five trying years successfully protecting saigon from major infiltration along highway 13 while pioneering air mobile operations it led the liberation of kuwait in desert storm and kept an uneasy peace in bosnia and kosovo along the way wheeler illuminates the division s organizational evolution its consistently remarkable commanders and leaders and its equally remarkable soldiers meticulously detailed and engagingly written the big red one nimbly combines historical narrative with astute analysis of the unit s successes and failures so that its story reflects the larger chronicle of america s military experience over the past century

the federal special prosecutor unprincipled abuser of power or staunch defender of the law as kathy harriger shows the special prosecutor was a hotly debated and controversial subject throughout much of its existence this was especially true she argues during the lengthy expensive and highly politicized investigations of lawrence walsh and kenneth starr into allegations concerning presidents ronald reagan and bill clinton harriger offers the most complete assessment available of the use of special prosecutors in the post watergate era she analyzes the independent counsel s role within the framework of the separation of powers explaining how each has interacted with other key players in the political and legal system and showing how those relationships have affected the prosecutor s ability to conduct investigations harriger s previous edition focused on the legacy of watergate but was published before walsh s iran contra investigations were concluded her new study adds substantially more information on iran contra provides a clearheaded appraisal of starr s sensationalized whitewater lewinsky investigations examines a number of senior level cabinet probes and critiques and clarifies the role of attorney general janet reno in these latter matters a completely new chapter compares iran contra and whitewater lewinsky to explore the limits of the law in the special prosecutor s efforts in this new edition harriger includes 20 new interviews with washington insiders including one with kenneth starr and covers the debates that led to both the reauthorization of the independent counsel statute in 1994 and its demise in 1999 she then examines the pros and cons of the office and offers constructive suggestions for improvement should it be revived for students scholars and concerned citizens her book takes us well beyond frenzied media hype and partisan politics to provide a timely reminder about the crucial role of separation of powers in our system of governance

choice outstanding title h r haldeman president nixon s former chief of staff is said to have boasted every president needs a son of a bitch and i m nixon s i m his buffer and i m his bastard i get done what he wants done and i take the heat instead of him richard

ellis explores the widely discussed but poorly understood phenomenon of presidential lightning rods cabinet officials who take the heat instead of their bosses whether by intent or circumstance these officials divert criticism and blame away from their presidents the phenomenon is so common that it is assumed to be an essential item in every president's managerial toolbox but ellis argues such assumptions can oversimplify our understanding of this tool ellis advises against indiscriminate use of the lightning rod metaphor such labeling can hide as much as it reveals about presidential administration and policymaking at the cabinet level the metaphor often misleads by suggesting strategic intent on the president's part while obscuring the calculations and objectives of presidential adversaries and the lightning rods themselves ellis also illuminates the opportunities and difficulties that various presidential posts especially secretaries of state chiefs of staff and vice presidents have offered for deflecting blame from our presidents his study offers numerous detailed and instructive examples from the administrations of truman dean acheson eisenhower richard nixon john foster dulles herbert brownell and ezra taft benson lbj hubert humphrey ford henry kissinger and reagan james watt these examples ellis suggests should guide our understanding of the relationship between lightning rods and presidential leadership policymaking and ratings blame avoidance he warns does have its limitations and may even backfire at times nevertheless president clinton and his successors may need to rely on such tools the presidency ellis points out finds itself the object of increasingly intense partisan debate and microscopic scrutiny by a wary press lightning rods can deflect such heat and help the president test policies gauge public opinion and protect his political power and public image ellis's book is an essential primer for helping us understand this process

based on an unparalleled access to russian archival sources and going far beyond the military aspects of other historical works glantz's book is a testament to the nearly two million russians who lost their lives during the battle for leningrad 90 illustrations 16
