the divine matrix are the miracles that we see in the quantum world actually showing us our greatest possibilities rather than our scientific limits could the spontaneous healing of disease an instant connection with everyone and everything and even time travel be our true heritage in the universe there is a place where all things begin the place of pure energy that simply is in this quantum incubator for reality everything is possible in 1944 max planck the father of quantum theory shocked the world by saying that this matrix is where the birth of stars the dna of life and everything between

originates recent discoveries reveal dramatic evidence that planck's matrix the divine matrix is real it is this missing link in our understanding that provides the container for the universe the bridge between our imagination and our reality and the mirror in our world for what we create in our beliefs to unleash the power of this matrix in our lives we must understand how it works and speak the language that it recognizes for more than 20 years gregg braden a former senior aerospace computer systems designer has searched for the understanding to do just that from the remote monasteries of egypt peru and tibet to the forgotten texts that were edited by the early christian church the secret of the divine matrix was left in the coded language of our most cherished traditions it is verified in today's science in this paradigm shattering book gregg shares what he's found through 20 keys of conscious creation we're shown how to translate the miracles of our imagination into what is real in our lives with easy to understand science and real life stories gregg shows us that we're limited only by our beliefs and what we once believed is about to change

recently a series of groundbreaking experiments revealed dramatic evidence of a web of energy that connects everything in our lives and our world join braden on this extraordinary journey bridging science spirituality and miracles through the language of the divine matrix

please note this is a companion version not the original book sample book insights 1 the divine matrix is the container that holds the universe the bridge between all things and the mirror that shows us what we have created it is the place where all things begin 2 the story the wisdom keeper told me sounded similar to the story i had heard many times before civilization grew apart from nature and as time went on people began building things outside their bodies to remind them of who they were on the inside 3 the more we distance ourselves from our natural relationship with the earth our bodies and one another the more we feel the need to fill that void with things when we focus on avoiding disease rather than on living a healthy lifestyle on staying out of war rather than on cooperating in peace and on creating new weapons rather than on living in a world without armed conflict we are clearly showing that we are trying to survive rather than live 4 the conventional wisdom of history is that the tools of past civilizations were less advanced than modern technology but if we look at nature we can see that everything is connected and infinite this suggests that there's something within us that isn't limited by time space or even death

literature review from the year 2016 in the subject philosophy general essays eras grade 4 0 atlantic international university course psychology language english abstract for more than 20 years gregg braden has dedicated his energy as a spiritual seeker doing research and publishing five books he has traveled throughout the world

focusing on ancient and religious texts as well as served as a counselor for people seeking meaning in a spiritual context human beings exist in the world web of life with interconnections ultimately uniting nonbelievers and spiritual believers in this case non believers are an important group since they insist on more solid proofs which is the aim of this book most of them are unlike spiritual believers who accept faith without the need to reason first you have to be an admirer of science and religion to enjoy a great book that has had impacts on some people

seminar paper from the year 2016 in the subject literature modern literature grade a atlantic international university course seminar personal development i language english abstract in his book braden is referring to the universal field of energy that the father of quantum physics max planck a german theoretical physicist whose work on quantum theory won him the nobel prize in physics in 1918 describes as a field that connects everything he calls that field of energy the divine matrix now what is the divine matrix according to the author the matrix is a universal energy that affects our reality he uses quantum physics to explain it braden 2007 p 52 mentioned that the divine matrix is everywhere at all time and that it is also the mind of the universe besides the following book s review will help us understand how the matrix works in our everyday life equally important before the reading of this book i would experience the kind of things that i somewhat thought to be the unique person on this planet to ever experience most importantly i was incapable of explaining them it is true that i would as well question people around me if they ever experienced some of them the answer was yes but for the other experiences i did not even dare to ask someone else the very purpose of this dissertation is to discuss some of the topics braden tackles in his book because he talks about many themes nevertheless i have selected those i thought to actually be highly relevant accordingly i will discuss four 04 subjects the connection which exists between everything within the matrix the origins of the universe is also another discussion of my dissertation in addition to that i shall debate bilocation and the power of imagination on the latter braden 2007 p 55 talks about the bridge between imagination and reality why do i term it as power of imagination because the author even if he does not use the expression power co
