dying is a social as well as physiological phenomenon each society characterizes and consequently treats death and dying in its own individual ways ways that differ markedly these particular patterns of death and dying engender modal cultural responses and such institutionalized behavior has familiar economical educational religious and political implications the handbook of death and dying takes stock of the vast literature in the field of thanatology arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work this two volume handbook will provide direction and momentum to the study of death related behavior for many years to come key features more than 100 contributors representing authoritative expertise in a diverse array of disciplines anthropology family studies history law medicine mortuary science philosophy psychology social work sociology theology a distinguished editorial board of leading scholars and researchers in the field more than 100 definitive essays covering almost every dimension of death related behavior comprehensive and inclusive exploring concepts and social patterns within the larger topical concern journal article length essays that address topics with appropriate detail multidisciplinary and cross cultural coverage

ten years after elisabeth k. bler ross s death an inspiring guide to life distilled from the experiences of people who face death kirkus reviews the beloved classic now with a new introduction and updated resources section is this really how i want to live my life each one of us at some point asks this question the tragedy is not that life is short but that we often see only in hindsight what really matters in her first book on life and living elisabeth k. bler ross joined with david kessler to guide us through the practical and spiritual lessons we need to learn so that we can live life to its fullest in every moment many years of working with the dying have shown the authors that certain lessons come up over and over again some of these lessons are enormously difficult to master but even the attempts to understand them can be deeply rewarding here in fourteen accessible chapters from the lesson of love to the lesson of happiness the authors reveal the truth about our fears our hopes our relationships and above all about the grandness of who we really are

in recent years there has been a massive upsurge in academic professional and lay interest in mortality this is reflected in academic and professional literature in the popular media and in the proliferation of professional roles and training courses associated with aspects of death and dying until now the majority of reference material on death and dying has been designed for particular disciplinary audiences and has addressed only specific academic or professional concerns there has been an urgent need for an authoritative but accessible reference work reflecting the multidisciplinary nature of the field this encyclopedia answers that need the encyclopedia of death and dying consolidates and contextualizes the disparate research that has been carried out to date the phenomena of death and dying and its related concepts are explored and explained in depth from the approaches of varied disciplines and related professions in the arts social sciences humanities medicine and the sciences in addition to scholars and students in the field from anthropologists and sociologists to art and social historians the encyclopedia will be of interest to other professionals and practitioners whose work brings them into contact with dying dead and bereaved people it will be welcomed as the definitive death and dying reference source and an essential tool for teaching research and independent study

in the past most people encountered death at a relatively young age dying relatives were cared for at home and mortality rates were higher today there is much less familiarity with death which increasingly takes place in hospitals hospices and nursing homes this wide ranging and enlightening book offers an exploration of death and dying as human conditions that impact on the individual their significant others and those involved with their care and well being it is aimed at medical and healthcare staff social workers and counsellors as well as social sciences and health psychology students professional health and social care educationalists and anyone with an interest in this topic drawing on aspects of social anthropology history and the social and behavioural sciences the book examines the customs attitudes and beliefs surrounding death and dying emphasis is placed on the unique experience of death for each individual and the book highlights the challenges faced by those who work with people who are dying or those who have experienced loss through death in addition each chapter ends with some reflective questions that allow the reader to consider certain issues at a more personal level

ten years after elisabeth keller ross's death a commemorative edition with a new introduction and updated resources section of her beloved groundbreaking classic on the five stages of grief one of the most important psychological studies of the late twentieth century on death and dying grew out of dr elisabeth keller ross's famous interdisciplinary seminar on death life and transition in this remarkable book dr keller ross first explored the now famous five stages of death denial and isolation anger bargaining depression and acceptance through sample interviews and conversations she gives the reader a better understanding of how imminent death affects the patient the professionals who serve that patient and the patient's family bringing hope to all who are involved

using a social psychological approach the new edition of this book remains solidly grounded in theory and research while also providing useful information to help individuals examine their own feelings about and cope with death and grieving the well known authors and researchers integrate stimulating personal accounts throughout the text and apply concepts to specific examples that deal with cross cultural perspectives and the practical matters of death and dying

the five stages of grief first formulated in this hugely influential work are now part of our common understanding of loss ideal for all those with an interest in bereavement this classic text is reissued with a new introduction looking at its influence on contemporary thought and practice

this book is a brief but comprehensive survey of research writings and professional practices concerned with death and dying it is interdisciplinary and eclectic medical psychological religious philosophical artistic demographics bereavement and widowhood are all considered but with an emphasis on psychological aspects a variety of viewpoints and research findings on topics subsumed under thanatology receive thorough consideration questions activities and projects at the end of each chapter enhance reflection and personalize the material this fourth edition features material on moral issues and court cases concerned with abortion and euthanasia the widespread problem of aids and other deadly diseases the tragedies occasioned by epidemics starvation and war and the resumption of capital punishment in many states the book's enhanced multicultural tone reflects the increased economic social and physical

interdependency among the nations of the world topics receiving increased attention in the fourth edition are terror management attitudes and practices concerning death cross cultural concepts of afterlife gallows humor out of body experiences spiritualism mass suicide pet and romantic death euthanasia right to die postbereavement depression firearm deaths in children children's understanding of death child adolescent adult and physician assisted suicide religious customs and death confronting death legal issues in death dying and bereavement death education death music creativity and death longevity broken heart phenomenon beliefs in life after death new definitions of death children's acceptance of a parent's death terminal illness and the politics of death and dying

in this introductory text on thanatology alan kemp continues to take on the central question of mortality the centrality of death coupled with the denial of death in the human experience drawing from the work of ernest becker death dying and bereavement in a changing world provides a multidisciplinary and multidimensional approach to the study of death putting extra emphasis on the how death takes place in a rapidly changing world this new second edition includes the most up to date research data and figures related to death and dying new research on the alternative death movement natural disaster related deaths and cannabis as a form of treatment for life threatening illnesses and updated research on physician assisted suicide as well as on grief as it relates to the dsm 5 have been added

this unique book discusses the challenging issues in life death and dying as it applies to everyone people who are facing death those who are coping with dying or with bereavement those struggling with decisions about euthanasia or who are contemplating suicide and those who wish to teach children about the place of death in life the book provides a solid foundation readers can use as they pursue their own insights emphases and special interests in this field the authors illustrate that while we cannot make death disappear from our lives we can learn from each other talk about death together and determine how to live more productive lives in the face of death

a burgeoning body of literature on death and dying is organized into a comprehensive carefully outlined annotated list in this volume which cites more than 2200 books articles chapters monographs and reports primarily concerned with the counseling and theological aspects of death and dying compiled by a member of the clergy involved in hospice care this bibliography recognizes the wide range of topics that comprise the human experience of death and dying as it accesses information from the pastoral to the medical the historical to the topical and the philosophical to the technical elements of thanatology this multidisciplinary approach provides helping professionals as well as those involved with mortuary science and the study of thanatology with an extensive guide to specific and general information introductory material both reviews the current trend towards specialization in thanatology and the need to preserve a holistic approach towards death and dying and suggests uses for the sources cited in the pages that follow the annotated entries are descriptive and critical and are arranged to introduce the topic historically they are followed by relevant theological and philosophical issues and conclude with works that address the care of the dying and bereaved all the sources are fully indexed by author title and subject matter

is there such a thing as a good death should we be able to choose how we wish to die what are the ethical considerations that surround a good death the notion of a good death plays an important role in modern palliative care and remains a topic for lively debate using philosophical methods and theories this book provides a critical analysis of western notions surrounding the dying process in the palliative care context sandman highlights how our changing ideas about the value of life inevitably shape the concept of a good death he explores the varying perspectives on the good death that come from friends family physicians spiritual carers and others close to the dying person setting out a number of arguments for and against existing thinking about a good death this book links to the practice of palliative care in several key areas including an exploration of the universal features of dying the process of facing death preparation for death the environment of dying and death the author concludes that it is difficult to find convincing reasons for any one way to die a good death and argues for a pluralist approach a good death is essential reading for students and professionals with an interest in palliative care and end of life issues

this title takes a comprehensive approach exploring the physical social psychological and spiritual dimensions of death dying and bereavement through personal stories from real people death

dying and bereavement provides readers with a context for understanding their changing encounters with such difficult concepts

understanding death and dying teaches students about death dying bereavement and afterlife beliefs by asking them to apply this content to their lives and to the world around them students see differing cultural experiences discussed in context with key theories and research the text's pedagogy delivers relevant multi and cross cultural applications and connections across topics this helps students evaluate their personal assumptions and appreciate how the content applies to their own current and future roles as individuals family members work colleagues and as part of a community the text simultaneously challenges learners to consider their own perspectives and to think critically about the parallels between their own lives and different cultures included with this title the password protected instructor resource site formally known as sage edge offers access to all text specific resources including a test bank and editable chapter specific powerpoint slides

this work provides an up to date examination of the ways people face dying and bereavement in this third edition previous chapters are thoroughly revised and new contributors expand areas that have changed significantly reflecting the field's complex interdisciplinary character the chapters cover such diverse areas as psychology nursing medicine aids family studies sociology education philosophy law religion the humanities and political science whilst highlighting thanatology's core psychological and therapeutic caregiving dimensions first the text offers broad examinations of death systems from the vantage points of various cultural historical and disciplinary perspectives the second section represents the core of the book offering detailed surveys of the data of death dying and bereavement as they relate to different phases of our encounter with death as an abstract possibility and concrete reality next are chapters addressing a cluster of death related issues and challenges that confront us at both a societal and individual level such as aids and finally the volume closes with a few reflections on the complexity of contemporary thanatology framing some issues and recommendations that deserve greater attention by scholars researchers policy makers and practitioners also included is a comprehensive resource bibliography on the topic this text is intended to be of use as a resource for all those interested in reading about death studies both professionals and students alike

peer into the edge of forever stories and reflections on the meaning of extraordinary experiences premonitions of death near death experiences and afterlife communication are common but they can be difficult to talk about and understand dr kenneth doka a world renowned expert on death dying and bereavement explores hundreds of real life examples as well as fascinating research on unusual phenomena related to the dying process sharing stories from his own practice as a counselor and minister as well as stories from friends colleagues and clinicians dr doka helps you come to your own understanding of what these experiences mean with in depth examinations of death coincidences terminal lucidity reincarnation and more this book provides meaningful answers for anyone who has struggled with the grief of losing a loved one with a deep sense of empathy and compassion this book's insights support you as you integrate these phenomena and cope with the profound emotions that accompany life's final transition

first published in 1989 routledge is an imprint of taylor francis an informa company

though death is universal how we respond to it depends on when and where we live dying and grieving continually evolve new preparations for dying new kinds of funerals new ways of handling grief and new ways to memorialise are developing all the time bringing 25 years of research and teaching in the sociology of death and dying to this important book tony walter engages critically with key questions such as should we talk about death more and plan in advance how effective is this as more people suffer frailty and dementia how do physical migration and digital connection affect place bound deathbeds funerals and graves is the traditional funeral still relevant can burial and cremation be ecological and how should we grieve quietly openly or online
