the book discusses two of the main seeds of western culture the exodus and the odyssey which are entwined within the book by both a common link with egypt and a review of ancient chronology they were both antecedents to the rise of christianity which is at the heart of western culture it was inspired by a desire to understand the spiritual message of the odyssey which required both geographical and spiritual interpretations of the poem linked to this was a desire to understand the political context of the trojan story which required resolving the false hiatus in the archaeology of troy this resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the exodus and the location of the garden of eden writing the book has been a long and eventful journey longer than odysseus 19 years away from home the book is written in five parts universal chronology based on the identification of menophres with thutmose iii and of the bubastite portal s reference to shoshenq s participation in the battle of qarqar the egyptian third intermediate period is shortened by 120 years with a pharaoh ruling from tanis and subordinate kings at bubastis and thebes the exodus using the universal chronology and genealogical information and dates provided by the bible it is demonstrated that the story of the exodus is a combination of two events being the exodus of the hyksos led by abraham in 1406 bc following the eruption of thera and the exodus of the atenist levite priests led by moses in about the first year of tutankhamun 1204 bc the story of abraham also reveals the location of the garden of eden in the heartland of the levant radiocarbon dating the process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments the odyssey by comparing the life and work of archilochus to both the odyssey and the iliad it is shown that archilochus must have been the author of the odyssey the allegory within the odyssey is also discussed to provide both geographical and spiritual interpretations of the poem western culture the two main streams of western culture ancient greece and christianity are shown to have had their foundations in the stories surrounding the trojan war the spiritual message of the odyssey and the influences of egypt on greece and judaism it is shown how greek and jewish religions were fused to create the gospels and contributed towards modern astrology

the odyssey is considered to be the most beautiful literary work of the western civilization and homer the first and the greatest poet ever the book demystifying the odyssey is interpreting homers epic in a unique and completely new way for the first time in literature this book explains the events and phenomena that odysseus saw and experienced and which were considered so far as a result of the poets rich imagination so this book reveals how odysseus went to hades kingdom of the dead souls what are in reality scylla and charybdis who were the sirens how the island of aeolus the ruler of the winds actually floated how circa turned odysseuss sailors into pigs and other besides that this book also reveals the fallacy two and a half millennia long dating back from the first historians herodotus and thucydides according to which odysseus was wandering the mediterranean sea it further provides numerous proofs that homers hero was actually wandering the adriatic for all those readers who are familiar with the ancient greek literature this book will be great news and quite a surprise on the other hand for those who have not been quite aware of the old greek world it will provide great knowledge on the first european civilization in any case this will surely be an interesting reading for all of them
