examines the growth and transformation of the middle east economy during the 19th and early 20th centuries the text looks at how the region's economic structures were fundamentally altered by the growing impact of european trade and finance and by the internal reforms of the rulers of egypt it also examines in detail the impact of this process on the four central areas of the middle east the result the author argues was the creation of a fixed pattern of agricultural industrial and financial activity the states formed after the collapse

of the ottoman empire found that altering this pattern in their attempts to promote a less dependent form of development was fraught with difficulty and the problems they faced and their different approaches are still highly relevant to the middle east's economic development today

a survey of the european economy from 1500 to 2000 it explains why europe overtook the formerly advanced eastern civilizations and how it influenced the rest of the world it also compares europe's position of world dominance in the 19th century with its vacillating fortunes in the 20th century

reveals how global trade shaped early modern economic social and political development and inaugurated the first era of globalization

the development and transformation of the world economy are central themes of this reference work the book discusses the historical geography of colonialism and the formation of a world economy the organization and dynamics of the contemporary world economy poverty and plenty and work and welfare in the world economy in the regional section the economic history and organization of each world region are examined in more detail with the use of specific local examples special features within each section allow for greater in depth coverage also illustrating and expanding on the introductory themes with a colorful mixture of over 270 photographs maps and diagrams this reference will provide a clear understanding of the world economy the economies of nations and regions throughout the world

the ottoman empire is approached through analysis of its political economy based on world systems theory relations with europe constituted one of the key factors that shaped the dissolution of the ottoman empire yet a comprehensive account of the nature development and consequences of these relations has until now never been developed this book moves beyond the narrow framework of euro ottoman relations and places europe at the center of the expanding world economy as it examines the impact of this global system on the ottoman empire its main contention is that the dissolution of the ottoman empire was the culmination of a long term process whereby the ottoman territories became integral parts of the european centered world economy and ottoman state a subordinate member of the interstate system in addition to the broad processes emanating from outside the author focuses on the transformation of the political economic and social structures in the ottoman empire the changes in processes of production networks of trade and relations among various social groups

are described on the basis of archival material on western anatolia considering world affairs and ottoman developments simultaneously makes this work unique in its field this approach captures the transformation of the ottoman empire during the nineteenth century in all its complexity in addition to providing original information about western anatolia the book also offers a general model for combining the macro concerns of historical sociology with detailed research in social history
