recent years have seen a growing number of activists scholars and even policymakers claiming that the global economy is unfair and unjust particularly to developing countries and the poor within them but what would a fair or just global economy look like economic justice in an unfair world seeks to answer that question by presenting a bold and provocative argument that emphasizes economic relations among states the book provides a market oriented focus arguing that a just international economy would be one that is inclusive participatory and welfare enhancing for all states rejecting radical redistribution schemes between rich and poor ethan kapstein asserts that a politically feasible approach to international economic justice would emphasize free trade and limited flows of foreign assistance in order to help countries exercise their comparative advantage kapstein also addresses justice in labor migration and investment in each case defending an approach that concentrates on nation states and their unique social compacts clearly written for all those with a stake in contemporary debates over poverty reduction and development the book provides a breakthrough analysis of what the international community can reasonably do to build a global economy that works to the

advantage of every nation

this revised edition of abcs is a lively and accessible introduction to modern political economy informed by the work of marx veblen kalecki robinson minsky and other great political economists robin hahnel provides the essential tools needed to understand economic issues today dispelling myths about financial liberalisation fiscal austerity globalisation and free markets abcs offers a critical perspective on our present system and outlines clear alternatives for the future this second edition applies the analytical tools developed to help readers understand the origins of the financial crisis of 2007 the ensuing great recession and why government policies in europe and north america over the past six years have failed to improve matters for the majority of their citizens the second edition also helps explain what is causing climate change and what will be required if it is to be resolved effectively and fairly

this book investigates various dimensions of the economic conflicts between the us and other democratic market economy countries and state capitalist communist china in the past decade examining how differences in institutions and ideology bring these about through the lens of institutional analysis the book elaborates and explains the underlying institutional designs and reasons behind the disputes highlighting how such variances are embedded and reflect fundamental value divergences between china and other democratic countries this book will be of key interest to scholars students and practitioners in law economics political sciences international relations international organisations and global governance

populist upheavals like trump brexit and the gilets jaunes happen when the system really is rigged citizens the world over are angry not due to income inequality or immigration but economic unfairness that opportunity is not equal and reward is not according to contribution this forensic book draws on original research cited by the un and imf to demonstrate that illiberal populism strikes hardest when success is influenced by family origins rather than

talent and effort protzer and summerville propose a framework of policy inputs that instead support high social mobility and apply it to diagnose the differing reasons behind economic unfairness in the us uk italy and france by striving for a fair socially mobile economy they argue it is possible to craft a politics that reclaims the reasonable grievances behind populism reclaiming populism is a must read for policymakers scholars and citizens who want to bring disenchanted populist voters back into the fold of liberal democracy now available in audio

this analysis consists of estimating economic effects at an economy wide level and at the industry level the industry specific case studies include a comprehensive empirical analysis of conditions in the affected industries frozen concentrated orange juice lamb meat eproms a type of semiconductor integrated circuit color tv picture tubes urea high nitrogen content fertilizer brass sheet and strip standard welded steel pipes and tubes and bearings provides estimates of the effects on prices production employment wages income and trade

this book is a printed edition of the special issue growing apart religious reflection on the rise of economic inequality that was published in religions

provides a framework for the many voices calling for the reaffirmation of democratic values citizenship and service in the public interest this edition includes a chapter that addresses the practical issues of applying these ideals in actual real life situations

contains papers that appeal to a broad and global readership in all fields of economics

includes annual list of doctoral dissertations in political economy in progress in american universities and colleges and the hand book of the american economic association

mr apraku gives the reader an outsider s analysis of the good and bad elements that make up the u s the author a ghanian who has spent the last 18 years studying and teaching in the u s

brings his personal experiences as an emigré to this examination of american capitalism and democracy he looks at the strengths and weaknesses inherent in the american democratic system many non westerners including africans do not know enough about the western democracy of the american economic system they are being asked to adopt as a panacea to their economic political and social problems this book should be especially appealing to scholars in international and economic development developmental economics political economics and african studies

shows that government intervention in all areas of our lives not income inequality is what is really threatening the american dream mallory factor new york times bestselling author of shadowbosses we've all heard that the american dream is vanishing and that the cause is rising income inequality the rich are getting richer by rigging the system in their favor leaving the rest of us to struggle just to keep our heads above water to save the american dream we're told that we need to fight inequality through tax hikes wealth redistribution schemes and a far higher minimum wage but what if that narrative is wrong what if the real threat to the american dream isn't rising income inequality but an all out war on success in equal is unfair a timely and thought provoking work don watkins and yaron brook reveal that almost everything we've been taught about inequality is wrong you'll discover why successful ceos make so much money and deserve to how the minimum wage hurts the very people it claims to help why middle class stagnation is a myth how the little known history of sweden reveals the dangers of forced equality the critics of inequality are right about one thing the american dream is under attack but instead of fighting to make america a place where anyone can achieve success they are fighting to tear down those who already have the real key to making america a freer fairer more prosperous nation is to protect and celebrate the pursuit of success not pull down the high fliers in the name of equality
