when i was applying to medical school and received interviews with the multiple mini interview mmi
format i had no idea what i was getting myself into despite researching online reading other books i found
on amazon and gathering information from friends i did not fully grasp the true concept behind the mmi
until attending seven of these interviews with each interview i got better in responding and learned from my
mistakes from the previous interview this constant real life practice gave me enormous insight into what it
really takes to do well on the mmi i noticed i was not able to find any of this information anywhere else
which led me to make this ebook i like to think that responding to a scenario is an art i say this because
everyone will be responding differently and will approach the situation at different angles in the past i have

heard that there is not a single right answer but there are many wrong answers i disagree with this partially and would like to rephrase this there is a common right approach to every scenario and there are many wrong approaches you can take in this ebook i will begin by explaining what the mmi is all about and later outline the principles that you should learn the mmi is all about these principles if you learn the main principle you will confidently respond to the scenario despite the extra fluff or different details they provide this is how you do well at the mmi along with an explanation for each principle i have also generated key buzzwords that you should mention during your response these buzzwords are what drives the response home it is what makes the interviewer think this person knows what he or she is talking about despite the explanations and buzzwords i took the liberty to include numerous example scenarios and an ideal response for each the best practice is dissecting these questions and their responses and learning the main concept behind each question you will notice the frame of thinking understand the principle and recognize the lingo necessary to effectively answer each mmi question this is how you build confidence i have also included chapters on the role playing station the teamwork station the typing writing station and a chapter filled with example scenarios you may practice on your own after reading through this ebook you will be poised to attend any multiple mini interview and answer any mmi related question effectively i am 100 confident in this statement

medical interviews have changed a lot with time in the last two decades multiple mini interviews mmis have revolutionized the assessment strategies for entrance to medical schools mmis usually consist of 6 10 stations of independent assessments done in a timed circuit so that the same examiner evaluates a specific skill for a station among the candidates many of these stations assess a candidate's soft skills including critical thinking problem solving team working leadership and professional attitudes in addition to their knowledge skills and motivation towards choosing medicine as a career mmis are not just a test of a candidate's knowledge or skills but their ability to use it appropriately at the right time aristotle said we are what we repeatedly do excellence then is not an act but a habit candidates wishing to succeed in medical mmi interviews need repetitive practice in the various stations these stations usually include assessments on communication skills medical ethics recent medical facts role play with an empathetic approach data interpretation and calculations scenario based situations personal character motivation and judgment this book will provide an excellent variety of opportunities to practice these stations and guide the candidate with a framework of answers this book can be used for various medical university entrance exams including those in the united kingdom via the universities and colleges admissions service ucas the united states via the american medical college application service amca canada via the respective medical school applications service australia via the specific state tertiary admissions centre and many other countries via their specific admission pathways dr thanthullu vasu has previously published four medical books alongside many chapters and articles in leading international journals he has founded organized and directed many teaching courses that have received excellent feedback he regularly organizes national mmi courses for candidates applying to medical schools these courses are in high demand and have consistently produced a successful outcome many of the contributors in the book are team members from the rise foundation leicestershire a charity based in leicestershire risefoundationuk.com all the contributors have extensive experience as examiners in many interviews and courses the royalties from the sale of this book will be donated to the rise foundation
