is it possible to learn to write with talent or is writing only for a select few why does the ability to express your thoughts and ideas beautifully give you inner freedom a story a

piece a novel every literate person can write whether it can be read is another matter but that's another story not all violinists are Paganini but not all writers either are Shakespeare nevertheless their books are on the shelves and many authors receive huge royalties fortunately literature is not mathematics where you cannot start studying new material until you master the previous material in literature you can take useful knowledge in pieces like from a reference book or an encyclopedia to rise to the level of Shakespeare and others you first need to master at least the simplest methods of influencing the reader writing is almost the only profession in the world where even a shy person can breakthrough after all no one will know how many attempts it took to do this and you can tell your friends that the first time you hit the target this book will give you the basics of writing at first glance it may seem that it is too simple but perhaps rereading it in a few days will offer even more substance the fact is that many people today are often incapable of perceiving long complex thoughts as we are bombarded with technology and social media attention spans are short and at the same time we may not always be able to immediately see things that are fundamental and useful to us use this book as a writing guide or as a helper scroll up and click buy now today or better yet buy a paperback to always have it at hand
