seeing society offers an eclectic and comprehensive approach to sociological concepts and principles it shows how social

organization affects social behaviour and identity classic statements concerning the nature of social life are balanced with contemporary selections which examine salient sociological issues and controversies

how does the situation we re in influence the way we behave and think professors ross and nisbett eloquently argue that the context we find ourselves in substantially affects our behavior the person and the situation explores the complex ideas about personal versus situational determinants of behavior and relates the lessons of our discipline to important political social and even philosophical issues this its the type of book that we have long wished we had available to assign to the serious critical student who asks what have we really learned from social psychology

which citizens have fought america s wars which ones should fight in the future and how should they be recruited should military or other national service be an obligation for every citizen david segal s probing look at the complex issues behind these questions tells us much about the changing manpower needs of our armed forces and about the evolution of civil military relations in the united states segal analyzes the mobilization contributions and limitations of drafted reservist and volunteer forces from the early days of the republic to the present in the process he shows how americans have come to separate the benefits of citizenship from service to their country symptomatic of this separation is the current reliance on an all volunteer military a system that treats military service more as an occupation and opportunity for self advancement than as a civic duty and obligation drawing on a vast interdisciplinary literature in american history sociology political science and economics segal illuminates the ways demographics weapons technology international relations scientific management and social policies have all affected the composition of america s armed forces he also shows how the military anticipated and expanded the american welfare system and played a pivotal role in creating better opportunities for minorities and women the capabilities and performance of u s armed forces in future conflicts will depend on a thorough understanding of and informed response to the crucial manpower issues segal discusses his thoughtful study should be required reading for military professionals and policymakers and will be of interest to anyone concerned about the future of this country s armed forces

a significant contribution to historical sociology that shows how economic class relations within frontier communities determined the shape of the political system scott g mcnall

the author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably friedrich nietzsche michel foucault jacques derrida francois lyotard and richard rorty he concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system annotation copyrighted by book news inc portland or

phil brown has designed this book to make discussion of the issues of medical sociology interesting accessible challenging

partly with reference to india

a color illustrated textbook that opens with an overview of the sociological tools and perspectives that are used in the study of social problems it then disusses fundamental changes and problems in four basic social institutions the economy government education and family before examining more specific topics such as health care and poverty this updated edition adds two new features signs of hope boxes and personal perspectives boxes annotation copyright by book news inc portland or

featuring eighty two seminal writings social theory helps students draw connections across different schools of thought each reading is enhanced by a concise thought provoking introduction that highlights its key points and frames it in a larger context these introductions serve as a useful road map for students as they travel through the diverse views and continuing debates that make the study of social theory an exciting adventure the introductions also explain core issues and relationships among the topics covered
