this radical analysis of the role and importance of historiography interprets the philosophy and theory of history on the basis of historicity as a human condition the book exams the norms and methods of historiography from a philosophical point of view but rejects generalisations that the philosophy of history can provide all the answers to contemporary problems instead it outlines a feasible theory of history which is still radical enough to apply to all social structures

the historical profession is not noted for examining its own methodologies indeed most historians are averse to historical theory in historical judgement jonathan gorman s response to this state of affairs is to argue that if we want to characterize a discipline we need to look to persons who successfully occupy the role of being practitioners of that discipline so to model historiography we must do so from the views of historians gorman begins by showing what it is to model a discipline by using recent philosophy of law and philosophy of science there are different models at work whose rivalry and resolution are to be historically understood with this approach in place he is able to develop the history of historiography and explore the character of historiography as presented by historians he reveals that historians conform to various norms that historians now and in the past have agreed and disagreed about the same set of interrelated matters truth telling moral judgement and the synthesis of facts and it is this internal understanding that we need to recover if we are to arrive at a correct characterization of the discipline of historiography demonstrating how the practice of historiography requires choices and therefore the exercise of judgement gorman is able to show that in their making of judgements historians enjoy the immense benefit of hindsight he shows how in reflecting on their own discipline historians have typically failed to attend adequately to the history of historiography neglecting to situate previous historians within their historical contexts or to pay adequate attention to the fact that present historians too are within a context that will change in addition gorman s approach which emphasizes the power and necessity of choice and which rests on the pragmatic holistic empiricism of quine shows postmodernism not to be the threat that some historians feel it to be indeed it is shown to be a radical form of empiricism gorman shows how the historical enterprise may be established in our factual and moral understanding in the light of our choices and commitments to a shared world historical judgement is an original and important contribution to the philosophy of history by

bringing together the ideas of historians and philosophers gorman presents a much more practitioner focused examination of the discipline of history one that will hopefully encourage historians to think more about the nature of what they do

the fifth volume of the oxford history of historical writing offers essays by leading scholars on the writing of history globally since 1945 divided into two parts part one selects and surveys theoretical and interdisciplinary approaches to history and part two examines select national and regional historiographies throughout the world it aims at once to provide an authoritative survey of the field and to provoke cross cultural comparisons this is chronologically the last of five volumes in a series that explores representations of the past across the globe from the beginning of writing to the present day

the fiction of history sets out a number of themes in the relationship between history and fiction emphasising the tensions and dilemmas created in this relationship and examining how various writers have dealt with these in the first part two chapters discuss the philosophy behind the connection between fiction and history whether history is fiction and the distinction between the past and history part two goes on to discuss the relationship between history and literature using case studies such as virginia woolf and charles dickens part three looks at television and film as well as other media through case studies such as the film welcome to sarajevo and soviet and australian films part four considers a particular theme that has prominence in both history and literature postcolonial studies focusing on the issues of fictions of nationhood and civilization and the historical novel in postcolonial contexts finally the fifth section comprises two interviews with novelists penelope lively and adam thorpe and discusses the ways in which their works explore the nature of history itself

for all of the recent debates over the methods and theoretical underpinnings of the historical profession scholars and laypeople alike still frequently think of history in terms of storytelling accordingly historians and theorists have devoted much attention to how historical narratives work illuminating the ways they can bind together events shape an argument and lend support to ideology from ancient greece to modern day bestsellers the studies gathered here offer a wide ranging analysis of the textual strategies used by historians they show how in spite of the pursuit of truth and objectivity the ways in which historians tell their stories are inevitably conditioned by their discursive contexts

this comprehensive anthology presents 34 readings that are critical to an understanding of anthropological theory and the development of anthropology as an academic discipline the readings have broad anthropological appeal emphasizing cultural anthropology in the north american and european traditions thematic coverage begins with nineteenth century foundations and forerunners before moving on to the early and mid twentieth century when anthropology comes of age the last section looks at numerous late twentieth century and early twenty first century developments in anthropological theory including feminist anthropology postmodernity medical
