this book explores the best ways for governments to design venture capital investment incentives  
venture capital is a multi billion dollar industry and a major driver of innovation and national growth  
investment in startup companies by venture capital funds helps finance new inventions and create wealth  
economic growth and jobs  
however because venture capital investment is highly risky and sensitive to market downturns  
many governments around the world use special legal and tax incentives to help encourage this form of investment  
since the introduction of the first venture capital incentive in the usa in 1958 scores of venture capital incentives have come and

gone these incentives have experienced varied success with some failing entirely filling a gap in an important area this book employs a legal and regulatory approach to examine venture capital policy from a global perspective it uses an analytical framework to evaluate the design implementation and success of incentives and looks at over 60 examples from 25 countries around the world the book is aimed at researchers and policy makers in law finance and economics as well as practitioners and investors in the venture capital space the book introduces the legal aspects of venture capital investment and presents a list of leading practice guidelines and recommendations to help policy makers design effective efficient and appropriate venture capital incentives

csise2011 is an integrated conference concentrating its focus upon computer science intelligent system and environment in the proceeding you can learn much more knowledge about computer science intelligent system and environment of researchers all around the world the international conference will provide a forum for engineers scientist teachers and all researchers to discuss their latest research achievements and their future research plan the main role of the proceeding is to be used as an exchange pillar for researchers who are working in the mentioned field in order to meet high standard of springer s advances in intelligent and soft computing the organization committee has made their efforts to do the following things firstly poor quality paper has been refused after reviewing course by anonymous referee experts secondly periodically review meetings have been held around the reviewers about five times for exchanging reviewing suggestions finally the conference organization had several preliminary sessions before the conference through efforts of different people and departments the conference will be successful and fruitful we hope that you can get much more knowledges from our csise2011 and we also hope that you can give us good suggestions to improve our work in the future

the paper studies the effects of tax policy on venture capital activity entrepreneurs pursue a single high risk project each but have no own resources financiers provide equity finance they must structure the entrepreneur s profit share and base salary to assure their incentives for full effort in addition to providing equity finance venture capitalists assist with valuable business advice to enhance survival rates within a general equilibrium framework with a traditional and an entrepreneurial sector the paper investigates the effects of taxes on the equilibrium level of entrepreneurship and managerial advice it considers differential wage and capital income taxes a comprehensive income tax incomplete loss offset progressive taxation as well as investment and output subsidies to the entrepreneurial sector

this book discusses comprehensively the concept of venture capital and the indian scenario including legal environment a well structured text this book is divided into six segments such as concept of venture capital international experience of venture

this paper investigates the links between capital gains taxation and the level of venture capital activity i examine two explanations of how reducing the personal capital

gains tax rate may spur venture capital the first focuses on the supply of funds to the venture industry and the second on the supply of entrepreneurs the supply of funds is unlikely to be the principal mechanism through which the tax affects venture capital since less than half of venture investors face individual capital gains tax liability on their realized gains moreover most of the growth in venture funding during the last decade has come from tax exempt investors individual capital gains taxes may however have a significant influence on the demand for venture funds these taxes have an important impact on the incentives of entrepreneurs and other employees of start up firms who forego wage and salary income and accept compensation through corporate stock and options the paper closes by noting that reducing the tax rate on all gains is a relatively blunt device for encouraging venture investment venture investments account for less than one percent of realized capital gains

we examine the determinants of venture capital fundraising in the u s over the past twenty five years we study industry aggregate state level and firm specific fundraising to determine if macroeconomic regulatory or performance factors affect venture capital activity we find that shifts in demand for venture capital appear to have a positive and important impact on commitments to new venture capital funds commitments by taxable and tax exempt investors seem equally sensitive to changes in capital gains tax rates consistent with the notion that decreases in capital gains tax rates increases the demand for venture capital as more workers are incented to become entrepreneurs aggregate and state level venture fundraising are positively affected by easing of pension investment restrictions as well as industrial and academic r d expenditures fund performance and reputation also lead to greater fundraising by venture organizations

on cover title page oecd documents
