how to instructions on crafting with books will inspire you to think about creative ways to make new treasures out of old things the virginian pilot we all love to read and learn from books but the repurposed library takes our passion even further presenting us with thirty three projects to make quite literally out of books for these projects lisa occhipinti rescues and repurposes orphaned and outdated books from flea markets and library sales and turns them into new art objects and practical items for the home her creations range from artfully constructed mobiles wreaths and vases to functional items like shelves storage boxes and even a kindle keeper for those who want to replicate the sensation of holding a real book while reading from an e reader projects utilize every imaginable part of a book from hardback cover to individual pages and are a diy celebration of a new way to view a book s potential occhipinti s repurposed books are truly beautiful art objects and whether or not you re crafty enough to give them a try yourself her book is thoroughly enjoyable fine books and collections she shows readers how to transform books into mobiles lamp shades even clocks national post

this timely book addresses physical space in university libraries in the digital age it considers the history of the use of space integrates case studies from around the world with theoretical perspectives explores recent developments including new build and refurbishment with users at the forefront chapters cover different aspects of learning and research support provision shared services and evaluation of space initiatives library staff requirements and green issues are outlined the book also looks to the future identifying the key strategic issues and trends that will influence and shape future library spaces the authors are international senior university library managers and academics who provide a range of views and approaches and experience of individual projects and initiatives

the book library media connection cited as something all librarians need to have on their

shelves is now thoroughly revised for today's 21st century library environment covering both technology and library practices the title has been a go to text for librarians and library school students since 2002 since the second edition of this must have book was published in late 2009 libraries have undergone profound changes primarily linked to advances in technology we've seen the debut of rda the release of new pew research library and internet use data and the establishment of digital repositories community makerspaces and community reads programs of course libraries have also been affected by the expanding use of social media this thoroughly updated title addresses all these changes and more bringing you up to date on the monumental shifts impacting librarianship the book is designed to introduce lis students to the profession preparing them to enter an exciting and evolving world it clarifies the changing roles and responsibilities of library professionals new paradigms for evaluating information and characteristics and functions of today's library personnel among other subjects chapters cover preparing materials for use circulation reference services ethics in the information age internet trends and job search basics references websites and publications at the end of every chapter point to further resources and appendices supply information such as policies the library bill of rights and the freedom to read statement

emerging technologies can intimidate with their cost and uncertainty this book provides flexible options for adopting the most popular ones introducing new technologies to your library can be a daunting process they can be costly they may be unfamiliar to many staff members and their success is far from assured to address these concerns best technologies for public libraries accommodates budgets large and small providing options for both the ambitious and the cost conscious authors christopher decristofaro james hutter and nick tanzi provide a resource for staff looking to incorporate a number of emerging technologies into their library and makerspaces each chapter explores a new technology including 3d printing drones augmented reality and virtual reality covering how the technologies work the selection process

training sample programming best practices and relevant policy by describing a variety of program and service ideas across age groups the book gives readers the ability to first evaluate them within the context of their own organization before incorporating ideas à la carte this approach helps readers to adopt these new technologies and create policies with uses already in mind

the handbook of art and design librarianship integrates theory and practice to offer guidelines for information professionals working in art and design environments who need to support and anticipate the information needs of artists designers architects and the historians who study those disciplines since the first edition of this title the world of art and design libraries has been transformed by rapid advances in technology an explosion in social media and the release of new standards and guidelines this new edition offering mostly entirely new chapters provides an accessible fully updated guide to the world of academic art and design libraries from a range of international experts who reflect current practice at a global level coverage includes case studies and library profiles providing benchmarks for developing facilities teaching and learning including the acrl framework teaching with special collections meta literacies instructional design and cultural differences developments in institutional repositories digital humanities and makerspaces contemporary library design spaces for collaboration and sustainability this book will be useful reading for students taking library and information science courses in art librarianship special collections and archives as well as practising library and information professionals in art and design school libraries art museum libraries and public libraries

this book explores the pervasiveness of change in personnel selection and training budget planning marketing and promotion fund raising health issues for staff and clientele retirement and recruitment staying current inter library and inter agency cooperation joint use facilities

furnishing and refurbishing evaluating and selecting new format materials and technologies and lifelong learning

editor courtney has pulled together the best and the brightest who write and practice 2.0 to author chapters on next generation online tools this text is not a how to on 2.0 rather each chapter simply explains an online tool and how it is being used today using a few superb library examples ranging from public to academic and then discusses future possibilities the suggested readings exemplify the notion of 2.0 and publishing as the recommendations are well balanced between journal articles and freely accessible blog entries this is a must have to any library wanting to stay relevant in today's ever changing and challenging environment
booklist description

the content of this book focuses on ways that technical services departments in libraries are meeting the challenges of new formats new work duties and changing jobs in the wake of less money and a decreasing job force cover

although most art museums possess a library of some kind these facilities are often hidden from the public and seldom discussed in library schools despite the important role they play as substantial research venues co published with the art libraries society of north america art museum libraries and librarianship serves as an introduction to the field of art museum librarianship and its diverse settings editor joan benedetti has compiled contributions from practicing art museum librarians to present sixteen chapters that address the topics of leadership reader services automation security cataloging space planning collection development visual resources ephemera special collections archives fundraising public relations volunteers and interns professional development and solo librarianship each chapter consists of several essays that deal with the distinct environment of art museum libraries from the largest research collections that serve many curatorial departments and multiple

administrative layers to the smallest solo librarian venues whose unsung staff work in relative isolation the book concludes with a collection of brief institutional profiles which include statistical and descriptive information on fifteen diverse art museum libraries in the u s canada and europe appendixes that describe academic programs offering dual degrees in librarianship and art list international professional associations for art museum librarians and provide sample policies and procedures in use today in art museum libraries a bibliography and an index art museum libraries and librarianship the first publication of its kind is illustrated with over 90 black and white images of art museums their libraries and items from their collections

stay up to date with the growing amount of reference resources available online how important is the world wide to information retrieval and communication important enough that information professionals have seen students exit from their libraries en masse when internet service was lost internet providers dominate the indexing and abstracting of periodical articles as major publishers now offer nearly all of their reference titles in digital form libraries spend increasing amounts of funding on electronic reference materials and librarians devote an increasing amount of time to assisting in their use the reference collection from the shelf to the is an essential guide to collection development for electronic materials in academic and public libraries the reference collection from the shelf to the tracks the continuing evolution of electronic reference resources and how they re accessed in a variety of settings librarians representing university elementary school and public libraries in the united states and australia examine how reference collections have evolved over time and may soon be a thing of the past how public and school libraries have dealt with the changes why library research assignments have become more difficult for teachers to make and for students to complete how to organize online reference sources and why the nature of plagiarism has changed in the electronic era the book also examines the use of electronic references from a publisher s

perspective and looks at the most important accessible reference tools both free and subscription in the areas of humanities medicine the social sciences business and education the reference collection from the shelf to the also examines issues of authority accessibility cost comfort and user education in evaluating electronic resources the formation of purchasing consortia to facilitate the transfer of reference materials from print to online formats current literature and research findings on the state of digital versus print reference collections what electronic publishing means to smaller reference books dictionaries almanacs etc the need for increased information literacy among students the nature extent and causes of cyber plagiarism the use of federated search tools and includes a selected list of the top 100 free internet reference sites the reference collection from the shelf to the is an essential resource for all reference and collection development librarians and an invaluable aid for publishing professionals

distributed learning is now in the mainstream of educational practice learning is routinely delivered to citizens in their locality at home or at work as well as in more formal settings in educational institutions supporting such endeavours professional librarians have moved from the theoretical library without walls of little more than a decade ago to widespread implementation across the world information and communications technologies icts are now almost universally exploited by libraries to deliver their services utilizing the world wide web as the medium of choice so that more and more users are accessing services remotely as a result libraries have broken down the barriers of physical location and take for granted that their services will be delivered to their clients wherever they may be ever more sophisticated applications are being launched to meet escalating demand from users this edited collection is drawn from the fifth libraries without walls conference held in 2003 which addressed the key strategic issues arising from international regional and cross sectoral approaches to the provision of library services to distant users it is recognized as the premier resource for all

needing to keep updated on distance learner and virtual library issues which addressed the key strategic issues arising from international regional and cross sectoral approaches to the provision of library services to distant users it is recognized as the premier resource for all needing to keep updated on distance learner and virtual library issues which addressed the key strategic issues arising from international regional and cross sectoral approaches to the provision of library services to distant users it is recognized as the premier resource for all needing to keep updated on distance learner and virtual library issues readership these state of the art papers will enable library managers and information professionals in all sectors to keep abreast of the latest developments in this vital area the book will also assist educational specialists and course developers in increasing their understanding of the role and importance of information in the learning process
