seminar paper from the year 2005 in the subject ethnology cultural anthropology grade 88 venice international university 26 entries in the bibliography language english abstract japan and germany two of the most powerful nations in the world are strongly connected but still the people in these countries know very few about each other in this work the reader should get an overview about both countries so that somebody who doesn't have a good knowledge gets an impression of these countries in interviews people from both countries were asked what they think about each other what prejudices they have how they see the relationship between their countries and which experiences they have made in their own countries for sure this can not be seen representative for all inhabitants but it gives an impression of the thoughts of younger people in a world which becomes closer and closer and in which no country can stand isolated a generalization e.g. the germans or the japanese do isn't adequate because the scientists cannot say that a whole country behaves equally because of the process of globalization it is essential for politicians and managers who work in japan and reversly to know about the customs in the host country that is the point where the work of a modern cultural anthropologist is useful and needed imagine a business man from germany to be in japan and not knowing why the japanese bow to greet maybe he thinks the japanese wants to attack him by running into his stomach it is difficult to write about a country you have never been to so the sources are based on the interviewed people facts written in books and another useful medium is the internet in order to compare the two countries it is indispensable that the reader knows some facts about the countries so in the first part of this paper the aim is to inform the reader about the geographical situation the political system and the religion in the two countries the

showcasing moments of convergence between the german and japanese cultures towards common points of interest over the last one hundred fifty years the chapters in this book cover such topics as culture diplomacy geography history law literature philosophy politics and sports from the creation of two similar modern nation states to the aggressive struggle for national supremacy and subsequent total defeat in 1945 the necessity of coping with their earlier militarism and parallel economic miracles in the postwar era germans and japanese look back on a remarkably similar past

now available in english this three volume work focusing on the wide ranging political military economic technological and social interconnections and interconnectedness between the two new powers in the first half of the twentieth century was originally published by university of tokyo press in 2006 and marks an important milestone in collaboration at the highest level on this subject matter between german and japanese scholars

first study of the fascinating parallelism that characterizes developments in japan and germany by one of germany's leading japan specialists with the founding of their respective national states the meiji empire in 1869 and the german reich in 1871 japan and germany entered world politics since then both countries have developed in strikingly similar ways and it is not surprising that these two became close allies during

the second world war although in the end this proved a fatal attraction

this book presents comparative research into the economic and industrial systems of japan and germany after the second world war both japan and germany became miracles of economic development in the postwar reconstruction period although their political industrial and corporate systems are quite different as are the processes of development the particular differences reflect the economic social and environmental backgrounds of the two countries the aim of this book is to evaluate accurately the economic development mechanism and to extract valuable lessons from a comparison of the economic development of japan and that of germany

written by a team of japanese and german scholars this book presents an interpretation of japanese german history and international diplomacy it provides a greater understanding of key aspects of the countries bilateral relations from the end of the sino japanese war in 1895 to the parallel defeat of germany and japan in 1945 new research is explored on the military as well as ideological interconnections between japan and germany in the closing years of the nineteenth century the first world war and the development of bacteriological warfare during the second world war in addition the book's focus on the second world war significantly reinterprets two familiar axes of japanese german relations the impact of nazi ideology on japanese fascism and the axis alliance drawing on german as well as japanese archival sources the book presents a revealing examination of a crucial period in the modern history of western europe and east asia as such it will be of huge interest to those studying the modern history of japan germany comparative and world history international relations and political science alike

inhaltsangabe abstract as the idea of japan as a leader in management styles and the mythos collectivism as a key to high quality performance and productivity is still in mind of german managers this work tries to compare actual leadership styles of japanese and german managers on the level of cultural dimensions in the study the sample consisted of 119 persons in middle management positions 82 male and 37 female 60 persons with work experience in japan and 59 without experience participants were asked to complete a questionnaire regarding 52 leadership characteristics e.g. the ability to assert oneself to cooperate or to delegate within five cultural dimensions participants then rated the importance of this characteristic for the specific category findings of the study showed significant differences in experienced and estimated management styles between the countries as well as significances regarding management traits of the german culture after working in japan inhaltsverzeichnis table of contents chapter one9 1 1introduction9 1 2statement of the problem11 1 3research question14 chapter two15 2 1international management and its cultural context15 2 1 1culture15 2 1 2cross cultural communication22 2 2 2cross cultural management25 2 2 3significance for organization29 2 3success factors of international business31 2 4culturally comparative management research35 2 4 1management oriented cultural research36 2 4 2cultural dimensions according to hofstede40 2 4 2 1dimension of power distance41 2 4 2 2dimension of collectivism versus

award winning reporter jason burke shows how the threat from islamic terrorism comes not from a single criminal mastermind or even from one group in this revealing account he characterizes it is a broad movement with profound roots in the politics societies and history of the islamic world using hundreds of interviews and thousands of documents burke shows how al qaeda is a convenient label applied misleadingly to a diverse disorganized global movement dedicated to fighting a cosmic battle with the west this is the definitive account of the mysterious organization retelling its story from scratch and challenging many myths that threaten the very foundations of the war on terror

this volume approaches the history of japanese german relations from a business history perspective starting with an overview of japanese german relations which focuses on the environment strategies and forms of inter firm relations akira kudo then uses case studies to provide a broader picture before finally considering strategy organizational strategy and technology and management transfer in the light of problems identified earlier all the case studies are chosen to meet specific criteria which allow the author to move from individual details towards a broader picture and thus provide a history of japanese german business relations during the inter war years

the aim of this book is to evaluate accurately economic development mechanism and to extract valuable lessons from a comparison of the economic development of japan and that of germany the book covers an extensive range of economic issues 1 macro economic factors capital labor technology 2 macro economic policies financial monetary industrial 3 external shocks to both economies oil crises exchange rate fluctuations environmental problems 4 development processes of major industries steel chemicals and automobiles the analyses with this systematic and comprehensive approach provide useful insights for the general reader as well as guidelines for developing countries and for eastern european countries in transition

alliances between sovereign states are among the least stable political associations despite professions of fidelity and common purpose most are effective for only short periods and only as long as it suits their

interests the german japanese alliance of world war ii was not so much a marriage of convenience as a long and uneasy engagement it was maintained because breaking the engagement would have reduced the prestige of each nation state germany and japan each found the existence and policies of the other convenient from 1933 1945 both powers challenged the international order other than this nothing else united germany and japan even while they shared some of the same opponents german and japanese antagonism toward the allies involved different objects of contention and questions of timing consequently coordination of german and japanese policies did not follow johanna menzel meskill argues that the german japanese alliance failed not only because each power failed separately to attain its goals but because as allies the powers failed to take advantage of their association the failure resulted to a large extent from the discordance between their political goals and the means necessary to attain them this work in diplomatic history is a careful analysis of presuming identities in a world of diplomatic differences in a new introduction to the book thomas nowotny looks back on the alliance from a historical perspective he concludes that both parties overestimated the potency and effectiveness of their military power like many before and some after they more generally subscribed to the offensive use of military power and effectiveness that the history of the twentieth century has proven unwarranted

in japan the delphi method has been used since 1971 to predict possible technological developments the same approach was used in germany for the first time in 1992 this book analyses and compares the results from studies carried out in both countries this comparison allows conclusions to be drawn as to the relevance of certain fields of technology or disciplines not only for public policy but also for companies possible realization goals constraints on their achievement the current r d level of the two nations and the necessity of international co operation all give hints on tomorrow s technology and its economic and societal impacts

japan and germany under the u s occupation explores the reconstruction of education in both countries after world war ii in japan large scale reforms were undertaken swiftly after the nation s surrender whereas in the u s zone of germany most of the traditional aspects of education were maintained masako shibata argues that differences in the role of the university and in the pattern of elite formation traceable back to the beginnings of meiji japan and the kaiserreich created the conditions for the diverging approaches of the japanese and german leaders to the adoption of foreign educational patterns during the occupation
