set at the end of last century the sharks is a thrilling tale of mutiny and shipwreck which bears comparison with melville s moby dick or conrad s typhoon in its suspense and its evocation of the fascination of the sea it is also the story of mankind s voyage into the twentieth century suspended between the empty skies and the bottomless depths dreadfully aware of its potential for self destruction but clinging to a belief in the preservation of a fragile humanity the narrator peder jensen is both competent second mate and unworldly philosopher whose brain lacks walls a floor and a roof through his

eyes we follow the dismantling of the rigid power structure on board as a community begins to emerge this novel from 1974 is the last one by norwegian author jens bjorneboe 1920 1976 one of norway s most original outspoken and controversial modern writers

this book is an up to date account of the world s most primitive and feared predators it covers their evolution their powerful bodies and amazing senses and how they swim hunt feed breed hibernate migrate and survive in the aquatic environment it is fully illustrated with stunning images made possible by the latest advances in underwater photography as well as cutaway diagrams maps and charts there are also detailed profiles of a wide range of shark species including the great white tiger shark thresher megamouth and the greatest fish on the planet the whale shark

these photographs aim to recreate the excitement and fear that accompanies an underwater encounter with a shark the book is in two sections the first covers the age old history of humans and sharks and the second is a more technical and scientific approach to the subject the book includes a 28 page section containing colour drawings and diagrams and text which covers the life cycle and food patterns of all species of shark

captain young and i for some years have been gathering material from all over the world about the selachians the sharks skates rays and their allies of which there are more than

600 known species we originally intended merely to up date captain young s book shark shark published by gotham house in 1934 and now a collector s item but as the material ever expanded it was decided that an entirely new book covering a much broader field was needed adaterial was collected from all over the world for many years when captain young and i felt that the research was nearly completed we called upon tom allen an experienced newspaperman to aid us in transforming the research material into a book tom and i continued the research up to and beyond the completion of the manuscript tom also did further research and added new material in the course of writing the book in all scientific classifications the selachians are separated clearly from the teleosteans or bony fishes and there are even leading ichthyologists ho do not regard the former as fishes at all but rather as representing a separate and distinct class of animal life
